# Demi Moore's Astrological Portrait

## Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

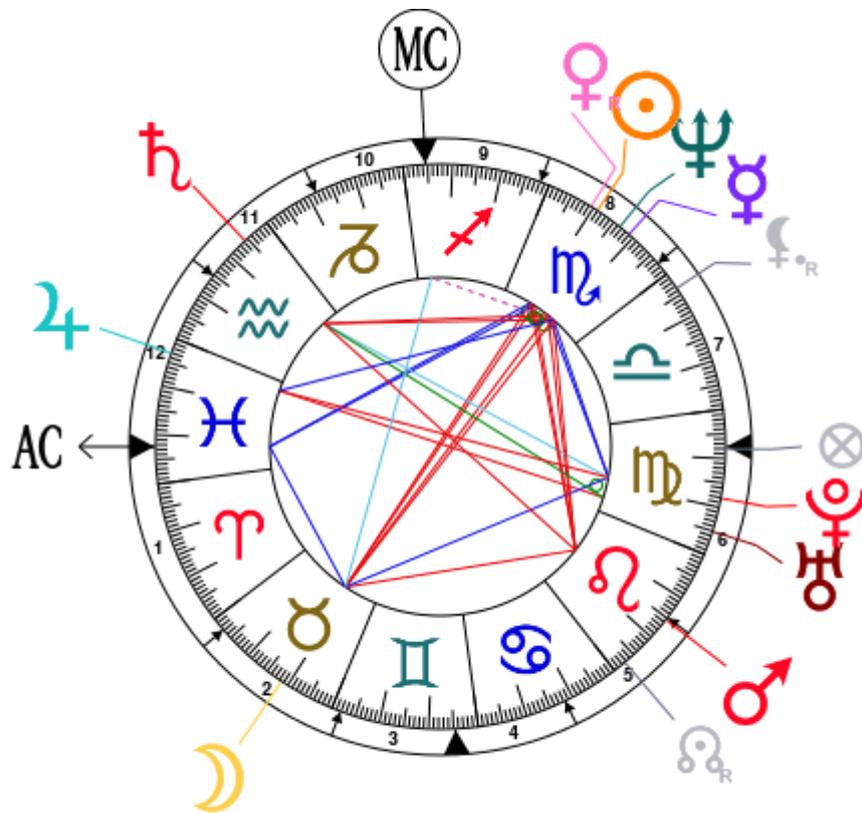

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

## Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order

to grow better with the former...

## Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

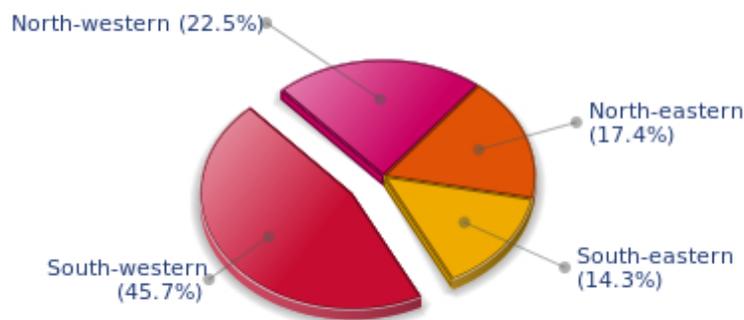

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

## Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

### Your Four Quadrants

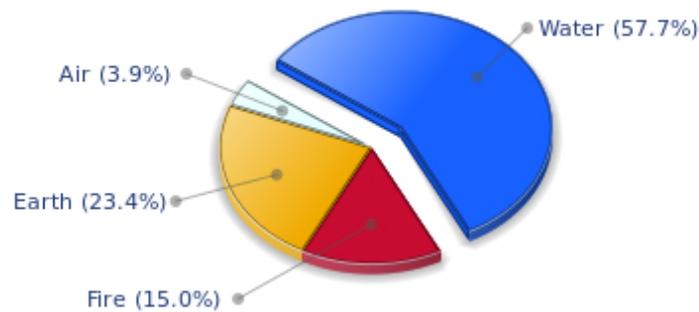

Demi Moore, the diurnal South-western quadrant, consisting of the 7th, 8th and 9th houses, prevails in your chart: this sector brings about a thirst for communication and sometimes, a need to take risks in your dealings with others. Relations are a factor of your evolution and your transformation, which you accept serenely. Indeed, what matters to you is the movement and the energy that link you to others and that make you gain more awareness. A kind of rebellion or a desire to get away from it all is rooted in you.

## Your Dominant Modes and Elements

Demi Moore, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

### Your Four Elements

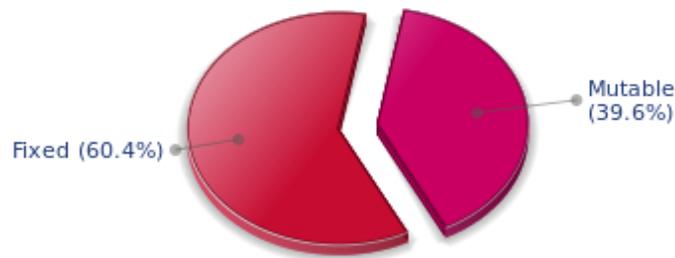

The predominance of Water signs indicates high sensitivity and elevation through feelings, Demi Moore. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

Like the majority of Earth signs, Demi Moore, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Air is under-represented in your natal chart, with only 3.90% instead of the average 25%. Air symbolizes the values of communication, exchanges with others, but also adaptability and flexibility abilities: if you don't get out of your cocoon to talk, to show interest in others, and to socialize, you may have problems understanding others. Because of your lack of flexibility or of your refusal to adapt yourself, you may be suddenly overwhelmed by events. You should get into the habit of talking, of phoning, and of thinking in terms of "mobility, flexibility, adaptability, change" in every circumstance. It will spare you so many troubles!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

## Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Demi Moore, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

## Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Demi Moore, here is the evaluation diagramme for your planets:

## Your Dominant Planets

The three planets that are most highlighted in your chart are Neptune, the Moon and Pluto.

With Neptune as one of your three dominant planets, you are a secretive and ambiguous person, often confused or unclear about your own motivations! Indeed, you are endowed with unlimited imagination and inspiration, as well as with an extreme sensibility that may turn you into a psychic or a clairvoyant. On the other hand, your impressionability is such that you may have difficulties in separating what is concrete and solid from illusions or dreams.

A mystic, a visionary or a poetess, you daydream, like any Neptunian, and you see what few people only can see, all of this being shrouded in aesthetic mists when you are fired with enthusiasm.

A boundless, infinity-loving woman like you is inevitably likely to be more vulnerable and easily hurt because of your acute perception of events. In such cases, you are hit full in the face, and you may sink into gloomy daydreamings and dark melancholy.

That said, this mysterious aura definitely gives you an indefinable charm in the eyes of your close friends who are often fascinated by your unique ability to feel and to see what ordinary people can never see!

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive, and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total self-control.

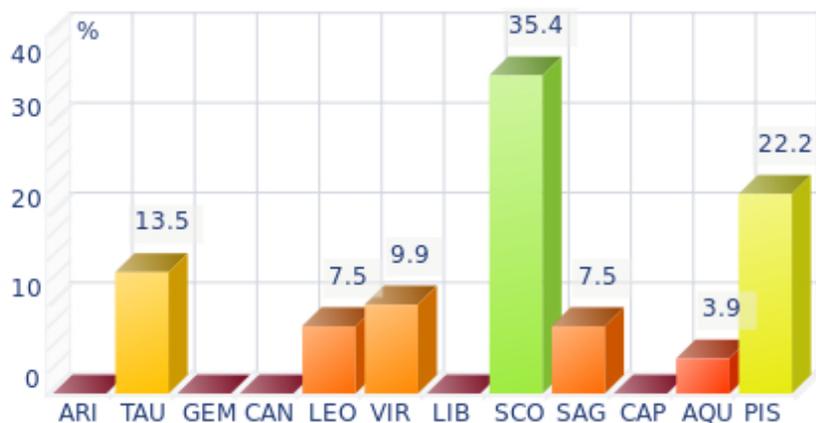

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

With Pluto as a dominant planet in your chart, you are a magnetic and mighty predator, like the Scorpio

sign ruled by this planet, who needs to exert pressure on others in order to "test" them. You are always ready to evolve, to risk destruction for reconstruction - including your own - to live more intensely whilst imposing your secret authority on things and on people you encounter.

You may come across as wicked, cruel or too authoritarian, but actually you only follow your instinct, you sound people out, and you like to exert your domination simply because your vital energy is too powerful to remain inside. You are inclined to be passionate, with hidden motivations. You are sometimes misunderstood but one of your great Plutonian assets is to go successfully through each life ordeal with ever growing strength.

### Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Scorpio, Pisces and Taurus. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

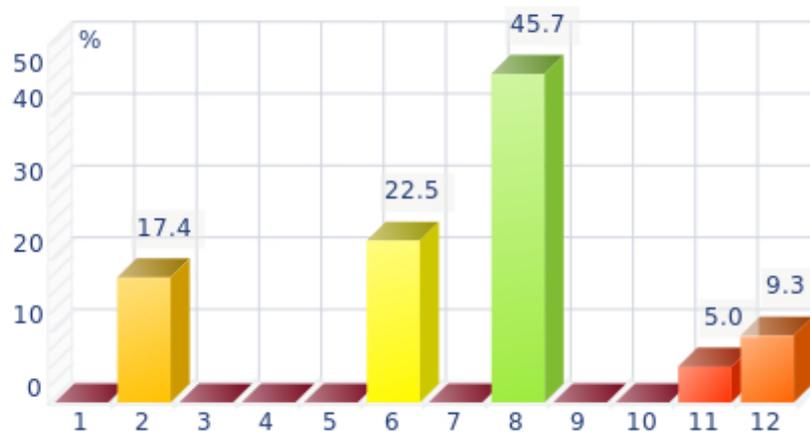

With Scorpio as a dominant sign, you are a strong and astute person, complicated and passionate, sometimes destructive and intolerant, but strong-willed, tough and daring, sometimes bordering on aggressive. So many qualities and dangers combined in one person! Obviously, this often results in a natural selection of people around you: those who stand up to you or admire you and those who can't bear you anymore! But that is precisely what you want. You are what you are and you are not going to transform yourself just to please. You are too proud and you never dread confrontations, although your way of fighting is secret, as is your nature that, mysteriously enough, you are so reluctant to reveal even to your close friends who will never understand you. That said... what a hellish charm you have!

Pisces is among your dominant signs and endows your personality with unlimited sources of emotions, dreams, imagination, and sensitivity, to the extent that you literally swim in a cloudy ocean of delightful impressions. These impressions are so intense and overwhelming that you don't really need to take action concretely, to show your dynamism or your willpower, since you already live so intensely with your feelings - you are as keen as a radar, always on the alert! That is why some people may not like your carelessness, and the lack of clarity in your opinions or actions; however they quickly notice your artistic

talents, your poetic or artistic side, and your total lack of wickedness. Besides, you feel compassion for people in pain - empathy is one of your great qualities. Thanks to your flexibility, your intuition, and your generosity, you may spend an important part of your life helping others. And if you are creative or if you have well-known artistic talents, everybody will forgive your little flaws: absent-mindedness, lack of energy or of will, too dreamy temperament...

With the Taurus sign so important in your chart, you are constructive, stable, and sensual. Good taste, sense of beauty, manners, and unfailing good sense - all these qualities contribute to your charm and seductive power. Furthermore, if some people criticize your slow pace and your stubbornness, you rightly reply that this is the price for your security, and that you like the way it is - slow and steady....

### Your Dominant Houses

Houses 8, 6 and 2 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

Your 8th house is very highlighted: it is the most complex house of the Zodiac. It symbolizes above all passion and transformation, which often go hand in hand. Indeed, you have a tendency to experience everything to the bitter end, and you overstep propriety borders because you want to understand everything, even what is... forbidden. This house relates to complex spheres such as sexuality, possessions and dispossessions that don't depend on you (inheritances, donations, sudden financial losses), death too - not yours in particular, so, don't worry! - and understanding of hidden or occult things: here are the fields that affect you generally, because you are naturally interested in them or because life gets you involved in spite of yourself.

Your 6th house is quite emphasized and indicates interest in work and daily occupations that take up a lot of your time: in analogy with Virgo, this house inclines towards perfectionism and training; somehow, you may be fulfilled through the process of being useful and investing your energy in your work. An environment appealing to you may be involved - your colleagues, for example - or a passion for one of these daily occupations. Medical positions or pets may play a role in your life; or ancillary love affairs too... These are a few possibilities indicated by an important 6th house.

The 2nd house is among your three most tenanted houses: life's material aspects - with everything that is implied in terms of security, appetite for life, desire for possession - are deep-seated and you can never be content with living on love and fresh air. On a more abstract level, you may have similar feelings regarding relationships: possessiveness and jealousy in the worst cases, but also faithfulness and durability.

## Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

## You were born under the sign of Scorpio and your Ascendant is in Pisces

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

This special aquatic duet has everything it needs to disconcert people. The Water element gives you a secretive nature marked by exacerbated sensitivity and complex emotions, which are expressed in almost mute manners. You easily get drowned in your inner whirlpool, but you make every effort to conceal this vulnerable point. Scorpio and Pisces, each in its own ways, always look for the thrill of forbidden experiences, unless they try to keep them at bay, or they keep them clearly separated from their ordinary concrete life. Whether you are driven by Scorpio's wildness or by Pisces' fantasy, you yearn to devote yourself entirely to a goal or a person. Nevertheless, your mystical and obsessional facet is not perceptible at first glance because your Pisces Ascendant wears an indifferent and polite mask. Since you are emphatic, you can easily put yourself in people's shoes and if necessary, you offer them your selfless

support. As far as your close friends and relatives are concerned, depending on your mood, they are entitled to undergo your wrath or enjoy your unwavering loyalty. In most cases, you display as a backdrop an irrepressible need to provoke.

### **You were born with the Sun in Scorpio**

Psychologically speaking, your nature is bilious, with aggressive impulses that lead you towards the transformation of your entire being and, continuously, of the situation surrounding you. You seem to be constantly struggling for your self-assertion. You cannot refrain from testing others with cutting remarks, not because you want to hurt them, but because you want to know them better through their reaction; for you, life and the feeling of aliveness are experienced through rebellion and tension. You may be manipulative and your aggressive attitude may equate with sly inquisition. You often remain silent, introverted and secretive, mulling over turbulent thoughts in the depths of your mind, leaving others puzzled by your somewhat peculiar behaviour.

As you are born under this sign, you are secretive, powerful, domineering, enduring, intuitive, assertive, charismatic, magnetic, wilful, daring, clear-sighted, passionate, creative, independent, vigorous, generous, loyal, hard-working, persevering, indomitable, possessive, shrewd, stubborn, ambitious, instinctive, tenacious, sexual, sexy, proud, intense and competitive. But you may also be aggressive, destructive, stubborn, anxious, tyrannical, perverse, sadistic, violent, self-centered, complex, critical, cruel, nasty, jealous, calculating, vulnerable and dissembling.

You are a hard-worker, enduring and serious. You follow all things through and your obstinacy is nice to see, particularly when your undertakings are not wrong, which seldom happens thanks to your immense insight that is almost that of a medium.

In love, Madam, you are all passion and sex appeal. Since your young age, you understood the sexual and magnetic attraction powers that you convey: like a predator, you choose, you take action and you catch in your nets the men you desire until you lose interest in them. The only men who can really stand the test of time are those who will resist you or subject you unconditionally, and whom you will respect for the rest of your life. They can also be men who will be totally submissive and, because of their absolute love for you, accept to live a hell of a life by your side, totally depending on you.

You use your seductive powers wonderfully well but when you find your soul mate, hopefully he will be as strong as you are, you will be a one-man woman, throughout your life. You will be an exceptional lover, loyal, possessive but sentimental, courageous and magnetic. There will be no boredom in your relationship where passion will be expressed with all the violence and the thirst for the absolute that inhabit you.

### **Your Ascendant is in Pisces**

Psychologically speaking, your nature is adaptable and receptive, exactly the opposite of the sign of Virgo whose very essence is to analyze every detail, thus creating a definite duality between the self and the outside world: conversely, Pisces absorbs and erases all forms of differentiation they face. With Pisces, there is no opposition, no conflict and no individual reaction. There is only fusion, non-separation, a perpetual and mobile spreading of the self over some blurred and huge sensation of sympathy with the environment. It is the absolute reign of feelings and emotions over the intellect and its separative logics.

As you are born under this sign, you are emotional, sensitive, dedicated, adaptable, nice, wild, compassionate, romantic, imaginative, flexible, opportunist, intuitive, impossible to categorized, irrational, seductive, placid, secretive, introverted, pleasant, artistic, and charming. But you may also be indecisive, moody, passive, confused, wavering, lazy, scatterbrained, vulnerable, unpredictable and gullible.

Madam, you are the great lover of the Zodiac. You are mysterious and romantic, with an incredible charm, incomparable sentimentality and unbelievable attractiveness. Your vulnerability and your passive child-like side are part of your natural seducing assets. The child-like woman or the femme fatale appears and disappears, in turn, according to your moods and to circumstances.

You are mobile, changeable but always noble. You move from excited encounters to delusions or to moments of despondency. You are driven by one sole constant motive: to listen to your feelings and your intuition, to use any given concrete situation as a basis for an imaginary realm full of fabulous and chimerical possibilities, where you are the adulated and worshipped star.

In your couple, you display the most total devotion. You offer your energy and your destiny to the man you love. You sacrifice yourself, as you sacrifice a whole lot of potentialities or opportunities, without remorse and with enthusiasm, so as to feel the chords of your perfect union vibrate more deeply and to raise your ideal of fusion and unlimited love to higher stages.

You are deeply in love, very intuitive and sensitive. Because of the dual nature of the sign of Pisces, it is likely that in the second part of your life, you will marry once more, unless you choose to have a simultaneous relationship, more or less hidden.

### **The ruler of your chart is in Scorpio**

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of your Ascendant is in the same sign as your Sun. This specific feature means that the Sun's characteristics in sign previously delineated are strengthened.

### **Aspects to your Ascendant**

Several planets form an aspect with your Ascendant, Demi Moore. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Pisces Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Venus trine Ascendant, orb 1° 51'

Thanks to Venus, Demi Moore, your behaviour is in harmony with your affective life, and you need not make any special effort in order to express your feelings in a natural way and without arousing people's criticisms. This asset enhances your natural easiness and charm, which is definitely not unpleasant!

★★★★★ Sun trine Ascendant, orb 3° 24'

Your will is fuelled by a strong energy, Demi Moore. It enables you to take quick decisions which totally match your personal ethics. Thanks to this good harmony between the Sun and your Ascendant, you feel rather good about yourself, and your inner self perfectly matches the image you are willing to show!

★★★★★ Moon sextile Ascendant, orb -3° 51'

Your instinct seldom misleads you, as far as your external appearance is concerned, thanks to the Moon's soft aspect with your Ascendant, Demi Moore. You keep your emotions under rather good control, in instinctive and smooth ways.

## Your Sensitivity

You love nature as much as your comfort, Demi Moore, you are an Epicurean willing to enjoy life's beautiful and good things within the family "clan" or with friends who value your conviviality and your kindness. You are faithful, stable, with your feet rooted in the ground and you are reliable in all circumstances. You are attached to your affective and material security. You tend to be jealous and possessive and, although your nature is quite slow, you may be short-tempered and aggressive when you feel threatened. In such cases, you display an exceptional stubbornness and fury and it becomes impossible to make you change your mind. Although you are aware that your behaviour is wrong, you stick to your line and your grudge is persistent. However, you are so sensitive to tenderness and to concrete gestures of affection that a few presents or a few caresses are enough to make you see life through rose-coloured glasses again...

Material affairs can have an importance disconnected from reality, Demi Moore: you tend to be very emotional about practical matters related to your personal interests.

Maybe you unconsciously fear some kind of shortage. You seek financial security, however, it may prove counterproductive if you display too much sensitivity in a field that doesn't need any.

The way you earn money often looks like roller coasters: sometimes lucky, even very lucky, but you may lose a lot too, because you are unable to stay Zen in all circumstances. Business requires cold blood, although emotions add charm...

### ★★★★★ Sun opposite Moon, orb -0° 27'

In your chart, two polarities are clearly opposing - or complementing – each other: on the one hand, solar values, the image you project and the models you follow. On the other hand, lunar values, moments of letting-go and well being through casualness. When you commit yourself in a project, it is often to the detriment of your peace of mind. Conversely, you completely feel that you are your true self only when you are no more under the scrutiny of the outside world. Therefore, you separate your social and professional activities from your private life and you seldom match the requirements of the former with those of the latter. It may be a hurdle, a fundamental anxiety. It may also be an obvious asset, when it is well integrated: in that case, you succeed in assigning to yourself, and in fulfilling, objectives that are not necessarily in line with your intimate natural demands, which are preserved and separated from your intentions, your ambitions and your expectations. Thus, a strong will can turn this Sun-Moon hard aspect into a rich instrument for creativity. A shadow zone, or uncertainty, still remains: on the affective plane, you are very sensitive. May be too much, to the extent that you become vulnerable in many circumstances. Because in different periods of your life, your landmarks (solar) and your intimate balance (lunar) will be simultaneously challenged.

### ★★★★★ Moon opposite Venus, orb -1° 59'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life's simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible, although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or

family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★★★★★ Moon opposite Neptune, orb -5° 06'

This Moon-Neptune dissonance wonderfully turns on the poetic soul, the exhilaration of feelings and dreams... and disturbs your practical life, as well as the management of contingencies. You do not lack inspiration but your reasons of living may be beyond your entourage's understanding! Bohemian life is pleasant but it is probable that you experience muddled situations. Your aims are noble and your intentions are very good. But you may not have the will to turn them into reality. It is important that you are wary of artificial paradises: escaping in the imaginary is not necessarily the best solution for problem solving. You are in search of an inaccessible tranquillity and you tend to procrastinate chores. Nevertheless, facts remain present and you may see that non-interventionism can only increase your difficulties. You must put an end to this vicious let-go circle. This does not imply that you have to forsake your dreams or to repress your very rich sensitivity.

★★★★★ Moon square Mars, orb -3° 55'

This Moon-Mars dissonance suggests touchiness and sometimes, aggressiveness. You are irascible and very sensitive to all sorts of threats and dangers. You react very quickly, too hastily. To protect your well being, you must learn to control your mood, to coordinate your actions and to balance your opinions. You are often disturbed by plain facts: either you seek refuge in your intimate realm and refuse to face the truth or, on the contrary, you are engaged in altercations, which forbid all tranquillity. It is important that you balance these two tendencies and that you alternate moments of action with phases of carelessness and relaxation. These two attitudes are relatively irreconcilable.

★★★★★ Moon trine Pluto, orb -6° 4'

You are a riddle for people... and for yourself. This harmonious Moon-Pluto aspect arouses your desire to understand and to express elements hidden in your unconsciousness. You are interested in the occult, in laws that rule beings and things in the dark. You like to pull strings and to manipulate situations without people's knowledge in order to remain mysterious. You feel fine when you are not in the limelight, but you intervene in the dark, with subtlety. Your intimate behaviour reveals the distance that you strive to keep in order to protect your inner life. You gladly cultivate the angel of the bizarre, even in your life habits and in your daily rhythms.

## Your Affectivity

In your chart, the Sun and Venus are both in Scorpio. With this configuration, love is but excessive, burning or... inexistent. It is all or nothing, rosy or black! For you, a relationship is necessarily intense and passionate. The transition is tenuous between crazy love and hatred. This is the omen for an excited affective life. But beware of in-between situations! Your fiery character is not satisfied with ordinary, monotonous, smooth and simple love affairs. Because you question yourself and you are fond of amorous challenges, you gladly provoke crises and gnashing of teeth... until you reach a hypothetical affective paradise where you and your partner can retain your own specificity, your will and your truth. What an ambitious programme! It is important that you relativize your tendency to over-analyze sentimental issues. You are sensitive to power struggles and you do not spare helpless people. You must be guarded against your propensity to take advantage of vulnerable people. With the persons who accept your will to experience your infatuations right to the end, there are lots of passion and excitement in prospect.

You cannot dissociate love from passion, Demi Moore. Your feelings are immediate, imperious, intense, and it is absolutely impossible for you to think of an amorous relationship without fusion, without the irresistible desire to know everything about your partner: emotions, feelings, sexuality, everything must be experienced in a possessive, absolute and unrestricted way. Actually, your feelings are as complex as they are deep. You seldom love, but when you do, a burning ardour and its torrid, violent frolics consume your couple. It is obvious that such powerful feelings may lead to jealousy and absolute exclusivity, almost bordering on the will to control your partner. If your relationship is genuine, all is fine. But if it is not the case, there are real dangers of shared wounds within your couple; it is hard to reconcile passion with tranquillity and it is clear that for you, sentimental serenity involves a partner who is either as complex as you and who instinctively understands you, or who is complementary, and as calm and steady as your impulses are intense and deep.

When you fall in love, Demi Moore, your feelings immediately reach a considerable level of intensity and quickly take you into the realm of passion. You are not a mild person when it comes to love, either you love deeply, or not at all. According to the Tradition, this configuration strongly associates feelings and sexuality. In your approach to love, feelings are intimately linked to desire and love physical aspects. It does not take you long before you deliberately infuse a fair amount of torrid eroticism into your behaviour, so as to make your idyll as burning and deep as your inner feelings are! If no adverse aspect affects Venus in the 8th house, you become possessive in the positive sense of the term: you happily care for your significant other, including for his financial interests. Venus in the 8th house protects everything that deals with investment, management of other people's possessions and particularly, those of the husband. Your benevolent attitude, which you also express outside your couple's relationship, usually causes pleasant surprises in the guise of unexpected inheritances. When there are tense aspects of square or opposition to your Venus, you may fall into the trap of obsessive and dangerous jealousy. And it would be a disgrace since, as the saying goes, jealousy is uncalled-for and very harmful when it is unjustified, and it is useless and too late when harm has been done...

★★★★★ Sun conjunction Venus, orb 1° 32'

This aspect gives a strong concern about the image you project. You pay a lot of attention to the impression you make and to the charm you exude. You need to know that you can rely on your seductive capacity and earn the liking of your entourage. What people think is important to you and you try to meet your close friends' expectations. You certainly want to please them, but above all, you need their attention. You are seeking pleasure, esteem and affection. But ideals and desires make up a whole: you can be at your best only with those who naturally attract you and for whom you have an esteem that is independent from facts. Your feelings are a response to your quest of the absolute: the persons you find likeable are adopted. Other people are rejected irrevocably! Your character is very affective and it constitutes an asset in many circumstances. Your capacity to seduce, to gain support and to earn esteem is above average. The only danger may be that you abide by the current fashion and trend more than by your own motivations and by what is essential, for the sake of appearances.

★★★★★ Venus conjunction Neptune, orb 7° 06'

Your sentimental life unfolds like a strange dream. Love is too delicate to be tamed or controlled. You follow your heart impulses in an idyllic ambiance, far from reality's ordinary constraints, far from conventions and conformism. You exude a particular charm, discreet and subtle. But your affectivity may be disconcerting. You are very sensitive to marks of affection and tenderness, although you are aware that love cannot be bought or won. What is meant to be will be and it is impossible to know the hows and the whys behind a prevailing harmony. The obvious danger is that you may refuse to make any effort

in such conditions. Living as a couple must feel natural and you do not need to objectively build the foundations of a relationship. You are an idealist and you dream of an affective paradise, which may be too good to be true...

★★★★★ Venus square Mars, orb 5° 55'

This Venus-Mars aspect indicates a sensitivity all on edge and an impulsive character. Emotions and heart impulses cause a marked tension. Life is an affective battlefield. Love is omnipresent but often fragile: impulsiveness reigns over the realm of feelings. The object of desire may become irresistible and implacable, or the sense of confrontations prevents affective tranquillity. However, the richness of your emotional responses is to be noted: you are more inclined than others to be guided by amorous fevers and you live intense passionate experiences. Your overwhelming impressionability must be contained. Romantic people seldom enjoy tranquillity!

★★★★★ Mercury conjunction Venus, orb 9° 3'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitize to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

## The Way You Take Action and Your Sexuality

What an energy, Demi Moore! You take so many initiatives, you have so much strength for action, construction and struggle! You are part of the conquerors, loyal and concerned about panache. Your vitality is such that you can achieve your objectives and release all your creativity. However, you are so proud and so unyielding that you cannot tolerate the faintest annoyance on your way: if you are vexed, you may turn into the opposite direction as a matter of reaction. Sexually, your magnetism and your energy work wonders. You are not complicated and, as long as your slightly domineering nature is respected and you are granted due admiration, all goes perfectly well. You usually have a lot of self-confidence and you believe in you. This characteristic feature may turn you into a hero with Hercules's strength and solar charisma.

It is in the area of your work environment that you are most active and pugnacious, Demi Moore. Or in your daily life, if you do not work.

You are a hard-worker, completely dedicated to the service of others: being helpful and efficient is your battle horse. Indeed, it is so obvious! Ask the opinion of your colleagues or your entourage... Your efficiency is not to be proved. You get things moving, you progress, you are very keen to improve yourself, and your boss can only rejoice that his staff contributes so actively.

The areas of health and pets are traditionally favoured by this planetary configuration. However, do

check your Mars' aspects if you intend to be a tamer!

In any case, the daily work sphere is the area where you can deliver to the best of your abilities, in terms of action. The only reservation may be not to overdo.

★★★★★ Mars square Neptune, orb  $-1^{\circ} 1'$

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Sun square Mars, orb  $4^{\circ} 23'$

This aspect shows impulsiveness, a fiery character and sensitivity all on edge. Excess of strength and of energy may jeopardize your life balance and cause impulsive and unconsidered actions. Your ideals are not always in line with your deeds. You are certainly reactive and you stand for yourself heroically. But your untimely fits of anger may worsen existing tensions and bring about uncontrollable situations. Facts contradict your aspirations. When this configuration is properly reined in, it becomes an inexhaustible source of passion and energy.

★★★★★ Mars opposite Saturn, orb  $-8^{\circ} 56'$

Why should you take action? And how? The surrounding world is not to be trusted. Past events have taught you to question simple situations and to intervene after thorough consideration. You are vulnerable to the traps of life, to confrontations and struggles. You may complicate your behaviour at will, often missing your target due to your self-censoring. Your interventions may lack spontaneity. You must overcome your doubts and acquire the certainty that you are able to handle realities and facts. If you make that effort, you can understand that there are many ways to make life simpler for yourself.

## Your Intellect and Your Communication Style

You are the very type of the researcher endowed with great intellectual and imaginative capacities, Demi Moore, and your curiosity is very deep. Researches, riddles and mysteries appeal to you and with a remarkable sixth sense and intuition, you endlessly try to unearth the truth, in all areas, like a psychoanalyst or a detective. You are a very secretive and introverted person, you find it difficult to open up and you rather prefer psychoanalysis. In spite of your clear-sightedness, you find it hard to deal with people: your critical mind, tinted with irony and causticity, may be destructive, especially since your determination and your stubbornness do not incline you to giving up. You are fond of provocations and you handle contradictions skilfully even though you may come across as dishonest.

You need to understand, to explore the unknown, to shed light on mysteries and to immerse yourself into the hidden fields of the unconscious or the afterlife, actually, into whatever escapes you, Demi Moore. You are not content with what seems obvious because you are on Earth to evolve and not to stagnate or remain in a mindless state and a lack of understanding.

Interestingly enough, astrology connects the spheres of death, after-life and mysteries with the spheres of other people's possessions, investments, inheritances etc. This analogy probably comes from the fact that in those two fields, everything remains inaccessible right away. It might be the reason why such mysterious topics are so attractive to you.

Your investigative mind enables you to easily express your feelings and to explain the inner mechanisms of your whole being, almost as if your own self was a specimen to study, without modesty and with the only motivation to go as far and as deeply as possible.

★★★★★ Mercury conjunction Neptune, orb 2° 24'

Your sense of psychology and of human intimate mechanisms is acutely developed. Your relations are nuanced, clever and guided by a good intuition of individuals. Without effort, you pick up what is at stake in relationships and in contacts. Your « sixth sense » inspires you and may take you into strange roads. On the relations' plane, there is an indisputable subtlety. You know what you should not say or, on the contrary, you naturally find the suitable words. Your natural and non-rational attitudes often prove right. The unknown fascinates you... Your curiosity for occultism and mystery is keen. Besides, life is a huge human enigma for you.

★★★★★ Mercury sextile Pluto, orb -0° 5'

Gullibility does not belong to the collection of your faults! You have a good grasp of human mechanisms and you easily detect flaws, calculations and hidden motivations. Human relations are subtle, never black or white, always complex. You often speak in riddles or in negations and you prefer to use the ambiguous language of symbols rather than the simplistic clarity of words. In this way, you fuel your mystery. On the relationship plane, your strength lies in the delicate art of highlighting flaws, detecting what destabilizes the enemy or, on the contrary, identifying what is relevant to your friends. You are more interested in what is concealed than in what is openly said. More often than not, you exercise an indisputable clear-sightedness.

★★★☆☆ Mercury square Mars, orb -3° 34'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

★★★☆☆ Moon opposite Mercury, orb -7° 3'

The Moon suggests relaxation, whereas Mercury implies a discoverer's mind. They both make sense and each one requires special attention, as they are sometimes upsetting. This Moon-Mercury aspect is likely to bring about nervousness or instability. Nervousness stems from the multiplication of your spots of interest and the perpetual restlessness of your mind, which prevents relaxation and well being from settling in. The outside world constantly appeals to your attention and you shift from one issue to another, to the detriment of your tranquillity. Therefore, it is important that you find the balance between two antinomial attitudes: letting-go versus curiosity, tranquillity versus communication. The new persons you meet with are not necessarily trustworthy and there is no certainty that the contact is

harmonious. It is important that you use both influences alternately.

★★★★★ Sun conjunction Mercury, orb 7° 58'

You know how to play with your image, how to give multiple representations of yourself. A precious asset: you are sensitive to other people's opinion and you adapt yourself to the audience. Of course, there is a "show" side in your manner that may prevent perfect cohesion. But that's the other side of the coin, for an extraordinary capacity to discover. This aspect translates into an acute sense of observation, an intense desire to learn and to bring everything to light. You strive to be informed in many circumstances, to understand the machinery of the world surrounding you, particularly regarding all human topics. And you will change according to that information and the knowledge gained. You have the chameleon's adaptation powers. And its vulnerability, as well.

★★★☆☆ Mercury square Saturn, orb -5° 21'

This Mercury-Saturn dissonance does not allow for simple and spontaneous relations. Your vision of the world is complex. You are sensitive to the fragileness of human relations and you are doubtful of transparent situations. You need to look for hypothetical calculations and you suspect that unclear reasons are underlying beneath dialogues and encounters. Your sociability is limited. You are a loner because you dread relationships and you trust very few people among your close friends. You ask yourself more questions than you can find answers! Therefore, you are on the look out, troubled by the unknown. Everything is subjected to your questionings. It seems difficult to find certainties and to be satisfied with commonplaces that cannot soothe your doubting mind. The forte of this aspect is that it brings about undisputable capacities for discernment. Although your lucidity may hinder your relations, it also grants a lasting protection against gullibility. By nature, you belong to the category of the sceptics!

★★★★★ Mercury trine Jupiter, orb -7° 54'

You display strong abilities for adaptation, social insertion and various learning capacities. You are credited with an acute sense of relations, probably because you can speak other people's language. You easily assimilate the most varied settings and your qualities are acknowledged. Your attitude and the words you use have the power to seduce and to convince your entourage. Diplomacy is an asset in your game. You are fit for negotiation and you seek compromise solutions. The only danger may be that sometimes, you too readily accept agreements that turn out to be less positive than foreseen, after a while. This is the other side of the coin for your exceptional flexibility and your unquestionable tact.

## Your Goals, Motivations, Career, and Destiny

### Your Sun is posited in the 8th House

One thing is certain, Demi Moore, your motivations cannot be easily figured out because this configuration is quite special and complex. Everything pertaining to the realm of emotions is deepened. You have a tendency to infuse passion in nearly everything in life and it will translate differently, according to your temperament and other characteristics of your chart.

Several common elements are noted however. There is a predisposition for essential matters connected to life and death and to great mysteries that go beyond daily life. You need to understand, to drill and to always delve deeper. You are inhabited by some sort of desire for transcendence, maybe because you feel everything with deep intensity: therefore, you are more vulnerable because events hit you full in the face

and you unconsciously understand that, if you manage to decipher how and why things appear, you will become tougher. But there is another reason to it. Your curiosity is continuously on the alert and you are amazed by apparently insignificant facts that stir up the chain of causes and effects and lead you towards the more essential matters that are knocking at the door of your soul.

Your concerns and your inclination may take you into such various fields as psychoanalysis, amassing knowledge in mystics, religion, occultism or spirituality (desire for transcendence and immediate access to an upstream reality). What is hidden mesmerizes you and you spend lots of time polishing your lucidity, as if progressing ahead and evolving further were the materialized forms of your life's challenge.

On a more terrestrial plane, here are the areas that are particularly important to you: sexuality, probably because of its transcendence and its hidden nature; death, either because you experienced a loss with a big impact on your evolution or on your destiny, or only because you are interested in this topic; finance, investments, inheritances, speculations, in other words, any financial area other than those of money earned by yourself, expenses, and the way you use your patrimony and your resources.

Your entire being strives towards assertion as you win over ordeals or over life hardships: nothing stimulates you better, nothing makes you evolve more than these critical periods of life when, on the brink of the abyss, you feel with maximal intensity all the choices that are offered to you. During such periods, you always manage to give of your best, you transform yourself and you come out enriched and more lucid: crisis and metamorphosis. This pattern suits you best. You want to move fast, always faster and further, because you intensely understand that daily reality is important only through its authentic and hidden contents. To discover the reality, your only tool is self-awareness development. However, do not take too many risks and do not systematically enter into the eye of the storm as you may be badly and repeatedly shaken up.

You lost your father quite early, literally or figuratively (sometimes, you find him again after an ordeal), although, paradoxically, he played a major role. If the theory is borne out, it is only an additional step towards sublimation and the overcoming of certain ordeals towards the road to wisdom. You, a mystic? Yes, in your own way, of course!

### **The ruler of your chart is in the 8th House**

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your Ascendant is in the same House as your Sun. This specific feature of your chart strengthens the Sun's characteristics previously delineated.

## Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Sun conjunction Neptune, orb 5° 34'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★★ Mercury semi-square Midheaven, orb -0° 36'

You are not pleased with the way you intellectually approach your professional goals, or simply your destiny. Because of this mild dissonance between Mercury and your Midheaven, in some circumstances, your communication style is tainted with a few hesitations or clumsinesses. There is nothing serious to worry about, and it is up to you to gradually build self-confidence through the study and mastering of your projects.

★★★★★ Moon bi-quintile Midheaven, orb -0° 52'

Your sensitivity and your emotions are in line with your goal and your ambitions, Demi Moore. You do not need to curb your temper lest other people have a wrong perception of you. Indeed, by being your true self, very simply, your social ascent will unfold naturally.

## Your Assets and Your Part of Joviality

Demi Moore, your sensitivity, your emotions, and your artistic capacities, particularly regarding music and rhythm, are strongly increased with this position of the planet of Greater Fortune in this borderless sign. It endows you with an artistic and endearing side as well as with flexible and mobile ways to consider your relationships and your environment. Your dreamy state of mind and your sensitivity to other people's sufferings may prompt you to get involved with compassion in great humanitarian causes.

Although Nature's nudge in the right direction is not spectacular here, Demi Moore, it is very real, nonetheless. Your sense of dedication, your generosity, and your compassion are developed to such an extent that they often enable you to happily find fulfilment in non-mediatised areas such as humanitarian work and charities. Your human qualities are strongly favoured when you strive in obscurity, discretion and silence. Your reward is a life that is rich and not limited to material contingencies.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Pisces increases your natural generosity and your dedication capacity. Your empathy is strong and you are inclined to offer your strength and your enthusiasm to the most deprived people and to give unlimited assistance to others. Your imagination is powerful and your feelings may flare up easily: with your sensitivity on the alert and your unbridled affectivity, you belong to the category of people who intuitively detect other people's sufferings and most valuable qualities of the heart, as if you were a human radar.

## Your Serious Side

Solemnity and concentration are at the service of your projects and your altruistic ideals. To the detriment of your own individuality, you become demanding with time, and you learn to better define the human values that are really important to you. Struggling in order to better assert your individual qualities can be highly profitable.

As soon as you become a member of a community, and when you are surrounded with people or with friends, you instinctively protect yourself, and you even hide, Demi Moore. There is nothing you can do against this. In public, you do not show your real face, but in friendship, you are loyal and reliable.

You prefer quality to quantity, and your friends have every reason to be happy that they won your confidence because they know that they can rely on you under all circumstances. Your friends are usually much older and more seasoned than you.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Aquarius endows you with the capacity to deliver in collective areas, humanitarian causes or avant-gardist projects. Your sensitivity is withdrawn but it is offset by your ability to handle human relationships in a daring and efficient way, which allows you to achieve your goals for the sake of a cause.

## A Few Special Points

### Your Uniqueness and Your Utopias

Your daily life is subject to numerous sudden developments. Your work environment is neither stable nor quiet, as dramatic turns of events often follow one another. The absence of habits and stability could be considered to be ... habitual!

Relations in the work setting are quite chaotic. You are often deemed extravagant, but also inspired and creative, at least in your environment. Besides, your occupation is out of the ordinary. It belongs to an original or avant-garde sector, to innovative technologies or to unusual areas.

Health wise, you may undergo nervousness or some brutal reversals that are followed by similarly swift recoveries.

### **Your Inspiration and Your Illusions**

There is a form of confusion or of vague perception in matters of sexuality, investments, inheritances and, as a general rule, other people's finance and the money you do not earn by yourself.

You have the gift for sounding the depths of your psyche, for feeling what others' motivations are, and you thoroughly understand behavioural patterns, in a sensitive, emotional and non-intellectual way.

This configuration may bring fortune as well as breaches of trust. Be very cautious before trusting anybody, as far as investment and finance are concerned.

### **Your Passion and Your Authority**

Your relationships with your subordinates and your colleagues are marked with passion and may create domineering/dominated connections conducive to conflicts, unless you use your authority to stabilize the situation.

You do not accept your superiors' authority, and you continuously strive to reverse your relationships with them in order to eventually take the domineering role that better fits your nature.

In a few rare instances, severe health conditions may strike you down, but in principle, you overcome them like the phoenix that is reborn from its ashes.

### **Your Isolated Planets**

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day,

based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

## Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

### Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Demi Moore, the ten main planets are distributed as follows:

### Your Northern and Southern Hemispheres

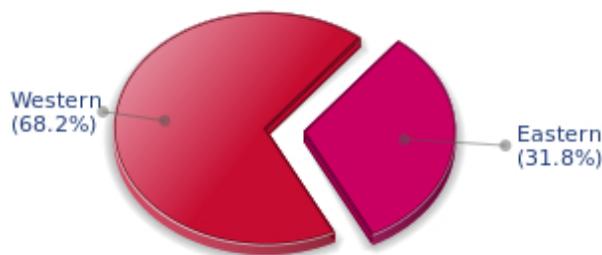

Demi Moore, the predominance of planets in the Southern hemisphere prompts you to take action, to draw attention on yourself, and to make your actions and what you have in mind visible to everyone. Sometimes, without giving a single thought to, and to the detriment of, a richer inner life and a deeper and wiser reflection. Action and communication are inevitable in your opinion and you tend to think that the only thing that matters is what is seen! This is not always true, and it is up to you to progress through the development of inner qualities such as meditation, solitude and imagination so as to become stronger.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Demi Moore, here is the planetary repartition in your Eastern and your Western hemispheres:

### Your Eastern and Western Hemisphere:

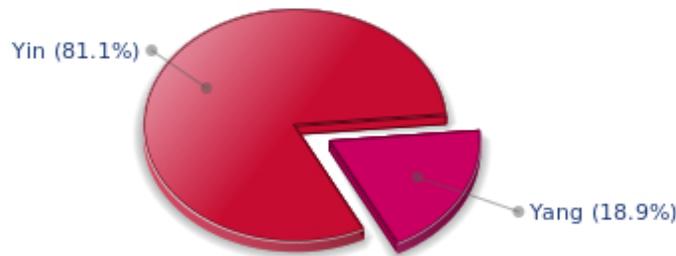

The predominance of planets in the Western hemisphere of your chart means that you are quite flexible, capable of empathy, convivial and communicative. An excellent factor for many professional activities or for your social or sentimental life for example.

A definite asset... provided that you are not at the centre of the decisions you must take in your life: you may be tempted to listen to the last person who spoke, and your flexibility won't always get you out of the tight spot. You are therefore advised to learn to decide alone and to cope with the consequences of your actions with courage and without regrets. This attitude will allow you to combine flexibility and action, adaptability and absence of hesitation.

### Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

## Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Demi Moore: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

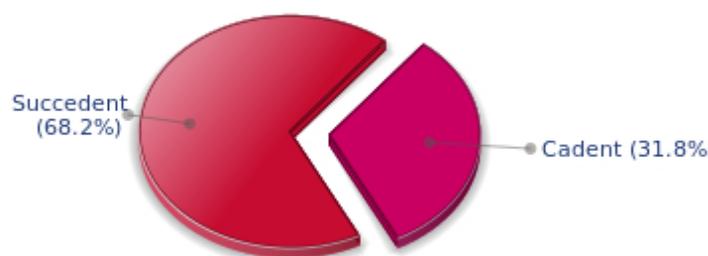

### Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

## Your Houses' Accentuations

The emphasis is on succedent houses in your chart, namely, the 2nd, 5th, 8th and 11th houses, Demi Moore: this configuration usually endows a personality with affective and sensitive qualities. Obviously, to the detriment of self-confidence or self-assertion, but your heart qualities may be very important. These houses also favour realization. Time and patience are part of their characteristics. However, they are only indications and you must include them in the rest of your chart in order to see whether they are validated or not!

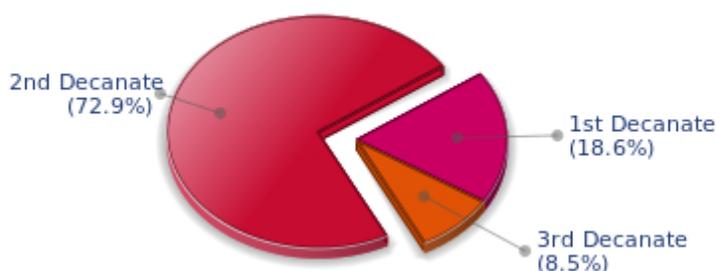

### Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

### Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, Demi Moore: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

## Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

### The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

You make friends easily and you earn your entourage's confidence and esteem. Very early, you develop an acute sense of fraternal relations, generously receiving and giving. This spirit of mutual aid may lead to a happy-go-lucky attitude that may border on carelessness... As you rely too heavily on friendship, there may be a danger to undergo a few setbacks: idealism and spontaneous dedication may meet with ungrateful reactions or the indifference of the very persons whom you try to help. Your destiny is probably marked with a quest of individual achievement. It is of utmost importance that you create, that you beget a fruit, a work or a child. Little by little, you become independent, without selfishness, but with the strength of those who know that they can only rely on themselves. Do not hesitate to live your dreams to the end and to engender, over and over again. Creation, whatever its form, is the path to your fulfilment. You slowly discover the pleasure to design as you please, without outside interference. It is important that you find an area for your personal expression and, as the poet says, "before the eyes, constantly, night and day, either a great labour or a great love".

### Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You decidedly assert yourself as a person made of desires, love and the absolute. If this configuration is not well controlled enough, your thirst for timeless relationships may hamper simple, natural and obvious affairs. You may reject persons whose attitudes do not perfectly live up to your expectations. However, as you keep on looking for your hero, it is very likely that you will find the person to whom fate has relentlessly tied you.

## The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 7th house: you need the presence of the other one (whether the object of your desire, your husband or your partner), as the indispensable mirror of your life. You are in search of privileged contacts, of fusion and harmony. At each step of your life, there is an important relationship that is always experienced with intensity and in an absolute manner, regardless of its positive or negative consequences. Like all the persons born shortly after the full moon, you are particularly interested in the relationship with your loved one, your double and your model.

## Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Venus retrograding in your natal chart emphasizes love: how did you see yourself when you were a child? You need to accept your identity if you are to fully experience love. As years go by, you learn to better accept your specificities, to open up and to love... What caused your affective problems during adolescence is slowly fading away. There still is a particularly acute sensitivity regarding the affection you receive: a couple relationship needs time to blossom and it is never perfect right from the start. Your problem is that you hardly take a laid-back attitude. Until you are reassured by the attachment of your loved one, you cannot easily express your desires. Wrongly or rightly, you feel that you lacked affection during your childhood. Your sentimental balance will be all the more satisfactory as you endeavour to pour out love and tenderness, passion and dedication. You will then respect your own affective patterns and you will arouse the attention that you so badly lacked.

**N.B:** modern astrology attaches less and less importance to the principles of retrograding planets.

## Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
