# Elizabeth's Astrological Portrait

## Introduction

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your

general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

## Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have

absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

## Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

## Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

### Your Four Quadrants

Elizabeth, the nocturnal North-eastern quadrant, consisting of the 1st, 2nd and 3rd houses, prevails in your chart: this sector favours self-assertion and material security to the detriment of your perception of others. You consider self-transformation to be a hazardous adventure. You are inclined to seek stability and you tend to protect yourself with your actions. Possession, acquisition but also communication, without opening up too much, are part of your deep motivations. You are rather autonomous and constant, however it is important that you pay more attention to others, so that you can improve your outcomes.

## Your Dominant Modes and Elements

Elizabeth, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

### Your Four Elements

The predominance of Water signs indicates high sensitivity and elevation through feelings, Elizabeth. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

Like the majority of Earth signs, Elizabeth, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

## Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Elizabeth, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

## Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Elizabeth, here is the evaluation diagramme for your planets:

## Your Dominant Planets

The three planets that are most highlighted in your chart are Saturn, Pluto and Neptune.

Saturn is part of your dominant planets: among the facets of your character, you have a grave and serious side, wise and somewhat severe, since your concentration can be powerful to the detriment of carelessness and friendliness.

You often look austere, but it is only an appearance, a kind of modesty or reserve; however, it is true that the Saturnian, who is fond of time, effort, asceticism, rigour and sobriety, may have popularity issues. Nevertheless, honesty and straightforwardness, reliability, as well as slow, wise and deep mental process, although not very popular and visible qualities, eventually become noticed and appreciated. Saturnians' second part of life is usually easier and more fulfilling.

Like the Jupiterian, your Saturnian facet prompts you to seek the essential, security, and longevity. However, the difference with the former is that you will never give priority to wealth or "the bigger, the better" philosophy for the sake of power. Saturn, like Jupiter, symbolizes social integration, and it is usually considered positive to have a harmonic Jupiter and Saturn in one's chart because of their social adaptation capacities.

Your vulnerability lies in your too serious and austere side, which may lead to unwanted loneliness and affective frustration. This generally does not last because Saturnians often hide deep down a golden heart that ends up revealing itself...

With Pluto as a dominant planet in your chart, you are a magnetic and mighty predator, like the Scorpio sign ruled by this planet, who needs to exert pressure on others in order to "test" them. You are always ready to evolve, to risk destruction for reconstruction - including your own - to live more intensely whilst imposing your secret authority on things and on people you encounter.

You may come across as wicked, cruel or too authoritarian, but actually you only follow your instinct, you sound people out, and you like to exert your domination simply because your vital energy is too powerful to remain inside. You are inclined to be passionate, with hidden motivations. You are sometimes misunderstood but one of your great Plutonian assets is to go successfully through each life ordeal with ever growing strength.

With Neptune as one of your three dominant planets, you are a secretive and ambiguous person, often confused or unclear about your own motivations! Indeed, you are endowed with unlimited imagination and inspiration, as well as with an extreme sensibility that may turn you into a psychic or a clairvoyant. On the other hand, your impressionability is such that you may have difficulties in separating what is concrete and solid from illusions or dreams.

A mystic, a visionary or a poetess, you daydream, like any Neptunian, and you see what few people only can see, all of this being shrouded in aesthetic mists when you are fired with enthusiasm.

A boundless, infinity-loving woman like you is inevitably likely to be more vulnerable and easily hurt because of your acute perception of events. In such cases, you are hit full in the face, and you may sink into gloomy daydreamings and dark melancholy.

That said, this mysterious aura definitely gives you an indefinable charm in the eyes of your close friends who are often fascinated by your unique ability to feel and to see what ordinary people can never see!

### Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Scorpio, Leo and Capricorn. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With Scorpio as a dominant sign, you are a strong and astute person, complicated and passionate, sometimes destructive and intolerant, but strong-willed, tough and daring, sometimes bordering on aggressive. So many qualities and dangers combined in one person! Obviously, this often results in a natural selection of people around you: those who stand up to you or admire you and those who can't bear you anymore! But that is precisely what you want. You are what you are and you are not going to transform yourself just to please. You are too proud and you never dread confrontations, although your way of fighting is secret, as is your nature that, mysteriously enough, you are so reluctant to reveal even to your close friends who will never understand you. That said... what a hellish charm you have!

With Leo as a dominant sign, you naturally shine brightly. Your dignity, your sense of honour, and your generosity can almost turn you into a solar mythological hero, a knight or a lord from the ancient times. People may blame you for your selfishness, your pride or your somewhat loud authority, but if you are self-confident, kind-hearted and strong-willed, it surely makes up for your little flaws, as long as they remain moderate...

Capricorn is one of your dominant signs and endows you with a grave and serious style that seems to stick to you constantly. But if you have that reserved and cold side - as some extrovert people may think - on the other hand you possess sturdy qualities: you are strong-willed and tough. Your long-term vision, your sense of duty, and your ambition are not affected by the derisory and erratic motions that seem to upset most mortals less steady than you. Besides, you are like a good wine, you age well and your natural solemnity or serious side paradoxically turns into an almost cheerful appearance, as you grow older. You are actually very sensitive when it comes to love. Faithful, caring, sweet, and sensitive, your behaviour is very different in your everyday, sentimental life. A golden heart beats under your tough and austere appearance...

Your Dominant Houses

Houses 1, 10 and 7 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

Your 7th house is one of your dominant houses: it symbolizes other people, marriages, associations, contracts, and partnerships. Your personal achievement and maybe your problems - depending on the rest of your chart - are strongly influenced by your rapports with others, the area in which you tend to commit yourself deeply. You appreciate communication, and you give importance to others' opinions. Success requires the support of others, which seems obvious and natural to you. Your marriage generally contributes to your fulfilment.

## Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

## You were born under the sign of Taurus and your Ascendant is in Capricorn

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

All you need is soundness! Capricorn is ruled by Saturn, the god of time, and it is the most patient sign of the Zodiac. Nevertheless, Taurus competes for the first place as far as endurance is concerned. With a Capricorn Ascendant, your outward appearance is stern, a bit cold, and solitary. Although you pretend to be indifferent, you seem to wait for the right time to show your merits and your superiority, and to harvest the recognition you deem that you deserve, rightly or wrongly. However, since your inner self is marked by your Taurus Sun, you love intellectual and material beauties, as well as your comfort, all things which are totally meaningless to any self-respecting Capricorn. Indeed, Capricorn is more ambitious, secondary, and detached than Taurus. As people get to know you better, they are touched by your kindness, your simplicity, and your reassuring warmth.

## **You were born with the Sun in Taurus**

Peace, joy of life and sensuality are essential to you: You have a simple and quiet nature. You easily find happiness because you are not competitive. In addition, your relaxed attitude and your common sense always take you to places where you are happy, even though you are not the number one, even though you do not move in haste. The important thing for you is to construct, with patience and persistence. These two qualities yield strong, steadfast, and sustainable efforts that can withstand any pitfalls.

You are gentle, with a slow thinking process, but once you have opted for an orientation, nothing, no one, can make you change your mind. You loathe changes in general, and once you have taken the few major unavoidable decisions in the course of your life, you are on track!

As you are born under this sign, you are loyal, steadfast, strong, patient, enduring, persistent, attached, sensual, realistic, constructive, tenacious, with a strong need for security. But you may also be stubborn, rigid, possessive, materialistic, static and slow.

In love, Madam, you are sensual and seductive. Your appetite for life is huge: Taurus is the most feminine sign of the Zodiac, therefore, you are the essence of femininity and you can be the mistress and the wife, in turn, without difficulty. You enjoy carnal pleasures as much as gastronomy and conjugal life.

You are possessive and jealous but, if your partner provides you with the harmony that you forcefully demand, you become an accomplished housewife. You will make a palace out of your house, you excel in all domestic tasks, you are an exceptional cook and, with your talent for interior decoration, you beautifully arrange lush plants with flowers and exquisite furniture. Your home is a haven of peace, richness, harmony and calm, with children radiant with health around you.

## **Your Ascendant is in Capricorn**

Psychologically speaking, your nature is introverted and cold, totally controlled and phlegmatic, at least regarding the image you project invariably. You seem unemotional and austere. Actually, due to your secondarity, you chew over your strategies or your reactions required by your environment. You are slow but very thoughtful, solid and balanced. You are as curt as you are cold and you put the entire strength of your character at the service of your huge and long-term ambition or of your detachment from earthly riches and you focus on spiritual values.

Like all the persons born under an apparently reserved and tough sign, your inner personality is often charming and gentle, as if the thick armour, forged throughout childhood, had entirely preserved the purity and the warmth of the soul imprisoned within.

As you are born under this sign, you are serious, cold, disciplined, patient, focused, thoughtful, ambitious, indomitable, cautious, lucid, persistent, provident, steady, introverted, stern, wilful, hard-working, responsible, persevering, honest, realistic, loyal, reserved, resolute, moralistic, quiet, rigorous, attached and reliable. But you may also be curt, withdrawn, calculating, petty, cruel, unpleasant, ruthless, selfish, dull, rigid, slow or sceptical.

You are courageous and rational, Madam, but you need affection and tenderness in spite of what you say. You try constantly to be reasonable and to repress the sentimental weaknesses that come up once in a while. In general, there are few amorous encounters at the beginning of your life.

But quite rapidly, you become aware that solitude is not good for your balance. You remain on the defensive, you are hurting in your shell, that convenient ivory tower where you protect yourself in all areas, except this particular one...

With an aching heart, you will finally forsake your defences and you eventually experience a few rare exceptional encounters. Among them, you will meet with your soul mate, to whom you will dedicate all your time and your love with loyalty, faithfulness, a strong sense of duty and maximal efficiency.

You will control your children's education, inculcating in them the values of effort, patience, perseverance and social rules. You will teach them that the old saying applies to them too, that slow and steady wins the race. To be early is not to be on time... but their time will come!

### **The ruler of your chart is in Scorpio**

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Elizabeth, is Saturn. It is posited in the sign of Scorpio and makes you appreciate mysteries and the unknown. You need to understand, to solve riddles, and to take action behind the scenes, perhaps so as to be even more efficient. Your criticising skill is a weapon, but it may also backfire on you, just like your sometimes excessive obstinacy.

### **Aspects to your Ascendant**

Several planets form an aspect with your Ascendant, Elizabeth. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Capricorn Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Saturn sextile Ascendant, orb -3° 02'

Saturn is in soft aspect with your Ascendant, Elizabeth. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

★☆☆☆☆ Neptune inconjunction Ascendant, orb -0° 37'

Neptune is in dissonance with your Ascendant, Elizabeth. You may have difficulties in controlling your emotions, and you tend to hesitate about the behaviour to adopt in society. In some circumstances, you distrust everyone, yourself and other people, without knowing the reason why. Keep your feet on the ground and do not allow your imagination to carry you too far away from sheer reality! No one nurtures bad intentions towards you. This is something you must realise if you do not want to get worked up about... nothing.

★★★★★ Pluto opposite Ascendant, orb -8° 41'

Pluto is in opposition to your Ascendant, Elizabeth. At the same time, he is in conjunction with the opposite angle, the Descendant, or DS, which represents other people, associations, and unions. Therefore, this is not strictly speaking a dissonance, but rather Pluto's qualities expressed within your

external contacts. Your lucidity and your strength work wonders, sometimes slightly too much, but they operate a natural selection in your relationships, and it is all for the best. It is true that your behaviour may seem a bit domineering and secretive. Nevertheless... isn't it what you finally wish for? If it is at all possible, you must try to display more softness, a value you know nothing about, but which can offer you a few assets, do not doubt it, not even for a second!

★★★★★ Mars semi-sextile Ascendant, orb -0° 32'

Your vitality and your taste for action are obvious, Elizabeth. Thanks to Mars, your behaviour is often perceived as energetic, or at least, as action-oriented and enterprising. Your dynamism is one of your constant assets.

★★★★★ Uranus sextile Ascendant, orb 5° 57'

Uranus is in soft aspect with your Ascendant, Elizabeth. Although your behaviour is original, nonconformist, and free, it is not unpleasant. On the contrary, this facet of your personality is sometimes considered by other people as endearing and unpredictable, in the good sense of the word. One never gets bored in your company because you are often found where you are not expected, whether regarding your ideas, your lifestyle or the way you react. You possess the charm independent and free persons are endowed with!

★★★★★ Jupiter semi-sextile Ascendant, orb 1° 06'

Jupiter in soft aspect with your Ascendant naturally endows you with a reassuring, calm, and benevolent side, Elizabeth. You honour your commitments without qualms, and thanks to your heart of gold and your generosity, your behaviour is protective and nice. You like to please other people, and whenever it is possible, you enjoy finding compromise solutions to all problems.

## Your Sensitivity

You seek other people's attention and approval, Elizabeth, you need to exteriorize your emotions, to interpret them, and even to dramatically enact them because it is essential for you to shine at the front of the stage. You always try to achieve more and better than anyone else and, whatever the situation may be, you strive to remain warm, generous, loyal, honest, straightforward and courageous. You are always available when your assistance or your advice is needed and you are glad and proud to help. However, you must be wary not to overdo, as you may be domineering! You are not indispensable and people might think that you are self-centered and authoritarian when you handle things with no regard for your entourage's views. It would be regrettable that you project such an image because it may only reveal a lack of self-confidence and you are only trying to reassure yourself...

You are dependent on your relationships for a large part, Elizabeth, and generally, you can open up only with people you are close to. Contacts are very important for you, however, you tend to listen to the one who spoke last. In fact you are easily influenced.

You will certainly find your dream husband and you will develop a close and intense relationship with him.

You are moody and impressionable. Your relationships with your audience are always put on a pedestal and you have a tendency to constantly change your personal image according to the persons you are dealing with and the reactions you get from them.

### ★★★★★ Moon sesqui-quadrate Uranus, orb -0° 14'

The Moon and Uranus intrinsically share little in common: they get along as well as fire and water! It is difficult for you to reconcile your desire for well being and intimacy with your destiny's dazzling passions and thunderbolts. You may feel that your intimate and family realm hampers your freedom. There is a potential for crises, explosions or splits. The desire for independence does not get on well with security concerns. There may be strong temptations endangering your very life foundations and you may embark upon a liberating and personal adventure. However, you fear rash decisions. Your need for security may temper your impulses and put a brake on your individualistic aspirations. To harmonize these tendencies within your intimate life, you must leave yourself enough room for personal expression or for an activity of your own. Otherwise, as days go by, built-up tensions may jeopardize the quiet course of your life.

### ★★★★★ Moon opposite Mars, orb -8° 44'

This Moon-Mars dissonance suggests touchiness and sometimes, aggressiveness. You are irascible and very sensitive to all sorts of threats and dangers. You react very quickly, too hastily. To protect your well being, you must learn to control your mood, to coordinate your actions and to balance your opinions. You are often disturbed by plain facts: either you seek refuge in your intimate realm and refuse to face the truth or, on the contrary, you are engaged in altercations, which forbid all tranquillity. It is important that you balance these two tendencies and that you alternate moments of action with phases of carelessness and relaxation. These two attitudes are relatively irreconcilable.

### ★★★★★ Moon semi-sextile Pluto, orb -0° 35'

You are a riddle for people... and for yourself. This harmonious Moon-Pluto aspect arouses your desire to understand and to express elements hidden in your unconsciousness. You are interested in the occult, in laws that rule beings and things in the dark. You like to pull strings and to manipulate situations without people's knowledge in order to remain mysterious. You feel fine when you are not in the

limelight, but you intervene in the dark, with subtlety. Your intimate behaviour reveals the distance that you strive to keep in order to protect your inner life. You gladly cultivate the angel of the bizarre, even in your life habits and in your daily rhythms.

★★★★★ Moon inconjunction Venus, orb -1° 5'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life's simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible, although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★★★★★ Moon conjunction Neptune, orb 9° 54'

This harmonious Moon-Neptune aspect indicates an exceptional receptivity. You are sensitive to ambiances and you can grasp what is at stake in any given situation. You can pick up things in the general atmosphere that the majority of people miss out. Your deep intuition allows you to feel the subtlest details, that « little nothing » which is the key to behavioural patterns. Inspiration is your guide and imagination accompanies your daily rhythms. Mysteries, psychology, esoterism, fantasy, the supernatural... one of these fields, at least, is of concern to you. You pay utmost attention to your inner life, to moments of tranquillity when you relax, when you allow your mind to wander at will. The danger is that you may seek refuge in the imaginary and that you shirk reality.

## Your Affectivity

In your chart, the Sun is in Taurus and Venus, in Pisces. Your behaviours (solar) usually reveal a passionate and possessive side. How is it possible to keep a love that you know to be fragile (Venus in Pisces) and elusive? How is it possible to fully enjoy a Taurean relationship when the muddled feeling that it is ending soon makes you distant? Your affectivity lives on these contradictions: on the one hand, an intense desire, demanding but unyielding, cut and dried. On the other hand, an amorous hypersensitivity which underlines the relationship's ambiguities, limits and flaws... In your quest of absolute plenitude, you are impervious to simple, uneventful loves devoid of passion. You need to clear up doubts and to prove to yourself the validity of a relationship that you feel to be fragile. Selection is the common feature that your solar and your Venusian signs share. Not everyone is allowed to enter into your affective realm. Taurus is known to be cautious, very keen to keep his benefits and the security of his life foundations. Venus in Pisces is selective too and her heart impulses are based on an unquestionable natural harmony. Passions cannot, and must not, be reasoned. The only important things are instincts and the intuition of an obvious connivance: perfect harmony. However, how many doubts must be encountered before achieving this very theoretical ideal!

Compassion and self-sacrifice: you are fond of this romantic mode and you are willing to express your feelings, the intensity of which is unlimited, Elizabeth. With excitement and imagination, you dream your amorous relationships as much as you actually live through them. The line between the concrete

world and your huge hopes is so tenuous that you don't know anymore where it is, although your particularly rich sensuality prompts you to experience your feelings concretely. You want to share communion and passion with your partner. The lyrical flights of your feelings break from your heart as waves that you do not attempt to control because they give you a real, almost voluptuous and carnal joy. You give a lot – sometimes too much - without reservation, almost without propriety, totally revealing your vulnerability during your amorous exchanges because you are sure of the quality and the might of your feelings: they are so powerful and overwhelming that you are aware that nothing can resist them.

Elizabeth, Venus in the 1st house (also called Ascendant) represents your behaviour or your character, as seen by others. This position contributes to soften your personality and to bring a natural charm and an easygoing quality. It gives you a sparkling, attractive and sexy side: not only do you easily express your feelings in a seductive and affectionate way, but they are also an integral part of your vision and the image you project. You want to please, you have a taste for beauty, even luxury, arts, music, you especially look for harmony in everything and diplomacy is one of your most renowned qualities. Therefore, you are lucky in the sentimental sphere, you establish links easily and you can expect to have long-lasting relations. Since you happily express your feelings, it's only right that you reap what you sow. There is no gap between your behaviour and your feelings, which endows you with exceptional assets for seduction.

★★★★★ Venus trine Pluto, orb -1° 14'

You exercise exceptional clear-sightedness in love. Your passions are subtle, deep, although disconcerting and imperceptible to the outsider. You display no gullibility and you keep your distance. This is part of your charm. You detect what is really at stake in your couple's relationship and in your sentimental attitude. You drive the boat of your sensitivity without falling victim to mirages and affective traps. The only danger is that you may be too calculating. As you try to totally control love and to constantly pull the strings, you may lose the ingenuity and innocence which are necessary to nurture a relationship. You give proofs of your love in a very personal way and you never hesitate to use paradoxes to preserve the authenticity of your relations. You can anticipate problems and prevent difficulties.

★★★★★ Sun semi-square Venus, orb 1° 14'

The Sun and Venus form a mild dissonance in your natal chart. There is nothing very serious to worry about. There is only a small gap between what you really want on the one hand, and your natural need to charm and the warmth you display on the other hand. Thus, will and affectivity are slightly out of phase, but it is most likely that you are the only one who feels it. This is a quite trivial characteristic, and you probably do not have to correct it, since it is so mild.

## The Way You Take Action and Your Sexuality

Elizabeth, the way you take action is quite paradoxical: you carry out your business perfectly well when you are in a teamwork with collective goals, but you do so in your original and individualistic manner: this is your main peculiarity. Your concern is to express your originality and your specificity while remaining immersed in a human community. You are curt and not very flexible. You are inventive and you easily fight authority, just because its very principle runs counter to the sacred values of freedom, independence and, above all, the absence of constraint. Competition does not appeal to you. You prefer to be useful and to conquer new territories of the humanitarian or the intellectual type. On the sexual plane, you are also often original and surprising regarding your fantasies and your tastes.

You are, by nature, an active person, Elizabeth. This is the only position that does not give a particular orientation towards a specific area of life. It is the most powerful placement and it indicates that your personality is precisely combative, conquering and action-oriented.

You are on the move, with the impetus which urges you, more than anyone else, to transcribe your thoughts and your projects into the real world.

The danger may be that you overdo and you turn into a warrior! This generous flow of energy is an invaluable asset that you use properly as you mature. The danger is also that you may come across as quarrelsome and too domineering to persons who may be scared by your punch and your pugnacity.

★★★★☆ Mars opposite Neptune, orb -1° 1'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Mars conjunction Jupiter, orb 1° 38'

Coordinated action wins over almost all obstacles! You mobilize your energy and your fighting spirit advisedly and you take timely action. This is the reason why you are efficient in situations requiring courage, determination, swift responses and diplomacy, altogether. You do not fear confrontations but you never provoke them unnecessarily. You take advantage of your chances and you adjust your behaviour to concrete situations. You empirically handle events with relevance. The only danger is that you may be overzealous to seize any opportunity... even those that are not necessarily good in the long run. You should take the time to carefully consider the facts and their consequences. The swiftness of your reactions must remain an asset.

★★★☆☆ Mars square Saturn, orb -3° 34'

Why should you take action? And how? The surrounding world is not to be trusted. Past events have taught you to question simple situations and to intervene after thorough consideration. You are vulnerable to the traps of life, to confrontations and struggles. You may complicate your behaviour at will, often missing your target due to your self-censoring. Your interventions may lack spontaneity. You must overcome your doubts and acquire the certainty that you are able to handle realities and facts. If you make that effort, you can understand that there are many ways to make life simpler for yourself.

## Your Intellect and Your Communication Style

You enjoy discussing and exchanging ideas. You know how to put forward sharp and provoking comments in order to keep the debate moving ahead. You tend to use words to put yourself in the forefront and you may become a leader. Your exact and swift, dazzling understanding favours a direct approach to problems and helpful decisions. You are inventive, intuitive and you are in a hurry to bring your projects to a successful conclusion. You do not pay attention to details and you prefer to go to the

essentials. However, your decision-making process may be too impulsive and may throw you into unconsidered actions; this is the reason why it may be good that you listen to other people's advice, that you do not walk headlong, and later, be forced to reverse back as a result, a situation you do not appreciate too much.

You have your feet on the ground and a particularly well-developed practical good sense, Elizabeth. With you, no excessive emotions or fuzzy, abstract thoughts: you know where you are heading to, and your sharp and clear intellect usually enables you to efficiently manage your personal affairs.

You may be stubborn and concerned about your earnings and your success, particularly in the financial area, where your intellectual abilities are remarkably exploited. You manage to get out of a tight spot thanks to your logical mind and clear vision.

★★★★★ Mercury conjunction Uranus, orb 7° 18'

Your state of mind is innovative and turns the surrounding world into a constantly moving field of experiences. You ask relevant questions ... and you answer them. Although you are flexible when you ought to, your principles and your beliefs are unwavering. It seems difficult to catch you off your guard. You multiply observations, relationships, contacts and you never lose face: actually, your mobility hides an unshakable determination and a deep lucidity. In a split second, you are able to catch the useful information or the enriching relationship. The original and fanciful steps you take exclude monotony. Your approach to life is amazing!

★★★★★ Moon trine Mercury, orb 7° 27'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

★★★★★ Mercury semi-square Mars, orb -1° 12'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

★★★★★ Mercury sesqui-quadrate Neptune, orb 2° 22'

With this Mercury-Neptune dissonance, relations may be distorted by the mirages of sensitivity. You have to make an effort to keep your objectivity. If this aspect is not well integrated, it may harm your good evaluation of human stakes. Your intimate beliefs may limit the dialogue, as if a very specific sensitivity prevented true communication. It may be difficult to find the right wording to express fragile and ineffable experiences. Imagination in power is not easy to share and the poetry of your speeches may be beyond your audience's understanding!

## Your Goals, Motivations, Career, and Destiny

### Your Sun is posited in the 3rd House

Your intellectual mobility and your curiosity are remarkable, Elizabeth. Your entire will is at the service of your inextinguishable thirst for knowledge and contacts. You are interested in communication and in occupations where you can move and express your ideas, such as journalism, literature or writings in general, trade, recruitment, laws etc.

Early in your life, you notice that your skills as a speaker and a mediator are impressive. As you mature, you can use these assets to carry your professional or personal projects through a successful conclusion. You like to move about in the proper sense and to visit your numerous contacts, in order to embrace and fulfil your need for communication.

You may play a rewarding role towards your siblings, if you have any. Or a sibling plays an important part in your destiny.

When things do not follow the course you want them to, because of your propensity to communicate too much and to move frenetically, you may be subject to conflicts within your neighbourhood and your family (again, as always...). You may have accidents when you are paying your visits and you may also be the target of your colleagues' harsh criticisms.

### The ruler of your chart is in the 10th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 10th House, Elizabeth. Your career - or your social status if you are not working - is highly important to you. You are driven by a certain ambition. You are endowed with the predisposition to lead, to shine, and to climb the hierarchical ladder. When you take action, you bear in mind the possible consequences for your social elevation.

### Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Saturn conjunction Midheaven, orb 1° 07'

Saturn, the planet of perseverance, seriousness, time, and responsibilities, is in conjunction with your Midheaven, Elizabeth. It often indicates a strong potential for professional success - or bright destiny in general - even though with Saturn, nothing is easy or simple. If you are not careful, and if the situation does not fit what you wish for, reversals may occur quickly. Astrologers have observed that with this configuration, you can successfully launch an activity which matches your character, and if possible, which also corresponds to Saturn's principles, such as for instance politics, administration, sciences, agriculture. By extension, it includes all occupations requiring intense and sustained efforts (Saturn being the master of time), even though the said occupation is not too "Saturnian". Commit yourself for a long stretch of time, and with obstinacy, you can harvest the fruits of your hard work.

★★★★★ Uranus trine Midheaven, orb 1° 47'

Thanks to this soft aspect of Uranus to your Midheaven, Elizabeth, you are endowed with the gift to let yourself be carried away by the changes cropping up on your way. Instead of being disheartening, modifications affecting your professional or social environment... stimulate you! Then, you may show opportunism, in the good sense of the word, and throughout your life, you may experience strokes of good luck, the consequences of which can be increased, thanks to your talent and your lack of fear whenever you face newness.

★★★★★ Jupiter square Saturn, orb -1° 56'

Jupiter and Saturn form a dissonance in your natal chart. It is far from being horrendous. This planetary configuration, which is deemed somewhere between the individual and collective characteristics, only indicates that your social integration may be delayed, or may encounter a few difficulties. Such slight delays or setbacks often have their origins in your own behaviour. Indeed, since Jupiter represents laws and public life, and Saturn, seriousness and perseverance, in many instances, you may become impatient, or even rebellious to any form of authority or legal constraints, to the extent that you cross the white line... When you face such circumstances, you must resign yourself to listening to reason and accept to wait for your turn, lest... your achievements are even more slowed down by your own haste.

★★★★★ Jupiter square Midheaven, orb -3° 03'

Jupiter, the planet of law and social achievement, is in mild dissonance with your Midheaven, Elizabeth. You may experience difficulties in climbing up the steps of your social status, or in having your true worth fully recognised. There is definitely nothing serious to worry about. It is up to you to remain self-confident and not to be too impatient. With effort and perseverance, you can reach serenely the goals you have set for yourself. The only mistake you must avoid with this configuration is to jump the gun and to forget hierarchy and laws, or just to underestimate the work you must put in to that end.

★★★★★ Neptune square Midheaven, orb 3° 31'

Owing to this dissonance between Neptune and your Midheaven, Elizabeth, you may have difficulties in knowing what you want regarding your professional orientation. Your imagination and your flexibility cause contradictory feelings and sometimes result in indecisiveness. You are doubtful about the path your social or professional destiny should follow. There is definitely nothing serious to worry about. It is just that Neptune represents a heavy emotional burden which you must firmly deal with, so as not to delay your trek towards success!

★★★★★ Mars square Midheaven, orb -4° 42'

Because Mars is in dissonance with your Midheaven, in some circumstances, you may feel misunderstood, Elizabeth. In society, you may even feel hostility towards you as you try to climb up the steps of your professional life, or when you strive to reach a higher social status. Your efforts may be resented. You must be twice as careful as you usually are and tone down your behaviour in order not to be rude to other people, even though from your viewpoint, and it is actually most often the case, it only has to do with misunderstandings or some eagerness on your part.

★★★★★ Sun quintile Pluto, orb 0° 3'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because

you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

★★★★★ Pluto sesqui-quadrate Midheaven, orb -2° 08'

Owing to this dissonance of Pluto with your Midheaven, Elizabeth, you may experience brutal changes in your professional or your living conditions. These upheavals are imposed on you by fate, and they sometimes take on a mysterious nature. Although you do not always understand the cause behind them, you must accept these changes as they occur, in order to bounce back in a different path, or just elsewhere.

★★★★★ Sun trine Neptune, orb -8° 1'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

## Your Assets and Your Part of Joviality

Your mental activity, your enthusiasm when you handle your projects, especially the collective ones, are very favoured by this planetary configuration: one of your best qualities, Elizabeth, is your capacity to be integrated in a group and at the same time, to keep your originality intact. As a natural consequence, your friendships are favoured and your protections last throughout your life.

Elizabeth, Nature gives you a nudge in the right direction and endows you with enthusiasm and generosity, contributing to your charm and dynamism. You are attractive, and you hold sway over groups. Your physical appearance is that of a jovial and charismatic person.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Aquarius stimulates your mental activities and favours the area of collective or humanitarian projects. In these fields, you can easily assert your originality and develop your interests for new topics and unusual things in general: sciences, higher technologies, but also esoterism, astrology and occultism. Your friendship life is favoured too by this configuration.

## Your Serious Side

Perspicacity and profundity, and ability to dissect your passions. You manage to add a dose of reason into the analysis of your most intense moods, and you learn to step back from them. Your instincts are well-controlled, sometimes, a bit too much.

Your responsibilities, Elizabeth, constantly increase, slowly, but steadily, as years go by. Your acute sense of duty, your good management of time, your long-term vision, and your moral rigour are the qualities which contribute to your inexorable rise to power with, deep down, odd feelings of anxiety.

With your definite taste for power or for success, you work your way up the top place. But the danger to fall is strong. You need as much persistence to reach the heights of your career, as to... remain there! Many Heads of State have this configuration, at the same time beneficial and a source of potential disappointments if too much importance and energy are dedicated to it. Indeed, climbing to the top should be only one facet of life.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Scorpio reinforces your resistance. Your demand for precision and your will to comprehend all things may make you seem a bit tough or harsh to your entourage. Because you are fond of precision, you are interested in exact sciences; your capacity to understand mysteries is strengthened. You learn to control your instincts, even though it may be detrimental to your spontaneity.

## A Few Special Points

### Your Uniqueness and Your Utopias

Material topics often take an unexpected turn and may even thrive in sudden and exceptional ways. Conversely, they may also cause serious troubles. This area of your life is filled with ups and downs.

On a more symbolical plane, your attachments to people, as well as your sensual behaviour, are devoid of conventional steadfastness and quietness: you may be possessive or surprisingly detached. You are impossible to categorized and you are definitely special.

### Your Inspiration and Your Illusions

It is in the relationship area that your approach may be nebulous: you tend to idealize your partner, and you may be easily influenced, and terribly irrational, when you assess the worth of your contacts.

However, when the time comes, you display a formidable intuition and it is your sixth sense that "recognizes" your future husband.

You may be weak, gullible and vulnerable in the area of human contacts. Since there is a danger to be deluded, you must use your intellect to avoid the possible traps related to your encounters, in spite of the sweet and confuse impressions they arouse.

Try not to be too lax with your associates and your relationships in general. If you make too many sacrifices, if you refuse to face the truth, you may undergo severe losses; try to step back before committing yourself and even, before... getting married! In this way, you can benefit from the positive side of this configuration.

### **Your Passion and Your Authority**

Your relationships with your subordinates and your colleagues are marked with passion and may create domineering/dominated connections conducive to conflicts, unless you use your authority to stabilize the situation.

You do not accept your superiors' authority, and you continuously strive to reverse your relationships with them in order to eventually take the domineering role that better fits your nature.

In a few rare instances, severe health conditions may strike you down, but in principle, you overcome them like the phoenix that is reborn from its ashes.

### **Your Isolated Planets**

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

## Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

### Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Elizabeth, the ten main planets are distributed as follows:

### Your Northern and Southern Hemispheres

Elizabeth, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Elizabeth, here is the planetary repartition in your Eastern and your Western hemispheres:

### Your Eastern and Western Hemisphere:

Elizabeth, the East and West sides are well balanced in your chart. This means that you are not too determined or authoritarian, and that you are neither impressionable nor fragile. You are capable of taking decisions, in full awareness, without anyone's help when circumstances so require. However, you have no problem taking your entourage's viewpoints into consideration, with tact and intelligence.

### Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

## Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Elizabeth: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

### Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

## Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Elizabeth: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive woman. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

### Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

### Your Esoteric Decanates

The third decanate, which means the part between 20° and 30° of any zodiacal sign, prevails in your natal chart, Elizabeth. It contains the degrees of spirituality, traditionally more delicate to deal with, since they incline towards evolution and therefore, destabilizations. Individuals with an emphasised third decanate may have a deeper sensitivity than most people, which often brings about ordeals, but also spiritual rewards.

## Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

### The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your entourage respects your manner: you belong to the category of persons who arouse their close friends' consideration because of their straightforward, sometimes rigid attitude. The concern that you must "maintain your rank" may increase the severity of your judgments and lead to intransigence. You are sensitive to the prestige of your social standing and you show an acute sense of responsibilities since your youth. You become an adult early in life and you always avoid dependency. Your life's challenge is to learn to handle your intimate and family life as well as you manage your career. In the private sphere, you may undergo difficulties: you are a real loner and you turn down any help and affection offered by your entourage. You deny yourself the sweetness of a comfortable and reassuring home. However, as time goes by, you will overcome your reluctance and you will allow what you most value, deep down: love and tenderness to blossom within a privileged relationship, within a family...

A part of you is bohemian: you may shirk realities (at least during the first years of adulthood) and you keep your distance from the constraints of this world! However, life reminds you of them... As years go by, you show more pragmatism. Of course, you must keep your assets: a sharp intuition of people and things, a profitable detachment that allows you to cope with daily petty things. But you must also control the vagaries of life that may fall into the bad side of a "bohemian life" if you are not careful. The consequences may be setbacks and delusions that will cease only when you become aware of realities. As you progress, you may be a therapist who heals the body (a medical occupation)... or the soul because you are altruistic and you know how to listen.

### Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and

insubordination.

One of the main drives of your life is your rejection of mediocrity: the intention is commendable although it is two-edged. You attach so much importance to charisma that you may reject a person whom you deem – wrongly – unworthy of your esteem! If you avoid this trap, the requirements that you demand from yourself as well as from your close friends become an exceptional springboard for evolution.

You decidedly assert yourself as a person made of desires, love and the absolute. If this configuration is not well controlled enough, your thirst for timeless relationships may hamper simple, natural and obvious affairs. You may reject persons whose attitudes do not perfectly live up to your expectations. However, as you keep on looking for your hero, it is very likely that you will find the person to whom fate has relentlessly tied you.

### **The Part of Fortune in House**

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 8th house: you need to constantly transform your life, to evolve and to shed your skin. You do not hesitate to regularly question the basis of your manner. Everything is death and revival and the wheel of life is ruthless: what was still yours yesterday will be a mere souvenir tomorrow... Your wealth is the know-how you demonstrate when you cope with changes imposed by events, while always remaining true to yourself.

### **Retrograde Planets**

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep, it is nonetheless safe.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression.

Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

**N.B:** modern astrology attaches less and less importance to the principles of retrograding planets.

## Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
