George Lucas's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Your Planets, Houses, Aspects, and Natal Chart

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

George Lucas, the diurnal South-eastern quadrant, consisting of the 10th, 11th and 12th houses, prevails in your chart: assertion and goals achievement are at the centre of your concerns. You are very keen to implement your dreams and your plans. You achieve your ambitions as soon as possible, whether through an active social life, highly charged friendly relations, or an urge to take actions in order to reap - in the eyes of the world, of course - the rewards of your dynamism. It is likely that spirituality or humanitarian actions are part of your motivations, sometimes at the price of some degree of isolation.

Your Dominant Modes and Elements

George Lucas, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Like the majority of Earth signs, George Lucas, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Cheers for communication and mobility, George Lucas! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

Your natal chart shows a lack of the Water element, with only 8.60% instead of the average 25%. Whether you are aware of it or not, affective values bring about problems, for you or your close friends. In general, a lack of Water does not necessarily mean that you are unable to love as much as others do. However, you may find it difficult to express the deepness of your heart and of your feelings. In the best cases, you come to terms with it, you adjust, you manage to show more affection or, why not, you pretend to be really affected! In the worst cases, you get into the terrible habit of repressing these essential values and you tend to forget that they are the basis of the richest and strongest bonds between human beings.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Fixed mode corresponds to a majority of elements in your chart, George Lucas, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

George Lucas, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Venus, the Sun and Pluto.

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

One of the dominant planets in your natal chart is the Sun. He symbolizes will, magnetism, sense of honour and dignity. You are a Solar being, and you often display charismatic and leadership qualities. Your warmth and your persuasive power lead you far away from pettiness. You enjoy thinking big and, consequently, you move forward according to what you decide.

Your Solarian weakness may be related to the sin of pride or to excessive authority. The frontier between pride and vanity is tenuous: be careful not to overstep it and to keep the nobleness of heart that is part of your charm.

With Pluto as a dominant planet in your chart, you are a magnetic and mighty predator, like the Scorpio sign ruled by this planet, who needs to exert pressure on others in order to "test" them. You are always ready to evolve, to risk destruction for reconstruction - including your own - to live more intensely whilst imposing your secret authority on things and on people you encounter.

You may come across as wicked, cruel or too authoritarian, but actually you only follow your instinct, you sound people out, and you like to exert your domination simply because your vital energy is too powerful to remain inside. You are inclined to be passionate, with hidden motivations. You are sometimes misunderstood but one of your great Plutonian assets is to go successfully through each life

ordeal with ever growing strength.

Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Taurus, Aquarius and Leo. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With the Taurus sign so important in your chart, you are constructive, stable, and sensual. Good taste, sense of beauty, manners, and unfailing good sense - all these qualities contribute to your charm and seductive power. Furthermore, if some people criticize your slow pace and your stubbornness, you rightly reply that this is the price for your security, and that you like the way it is - slow and steady....

Aquarius is one of the most important signs in your natal chart: it endows your personality - at least one of its facets - with originality, to the point of eccentricity, in spite of a sometimes distant and humane side. Likeable and impassive at the same time, you are a paradoxical man, very hard to define because the two planets Uranus and Saturn blend their qualities to create the so complicated and endearing sign that inspires your character. Saturn's seriousness and impassivity is added to Uranus' rebellion, talent, individualism, charisma, extravagance, and unpredictability! One of your main characteristics is that you never open up on a personal basis, but you tend to do so easily in public. You are actually quite strange. Sexy and charming in public, despite your nice and sociable character, you could frustrate many of your admirers in private because of your impossibility to show deep and warm affection, emotions, tears... But appearance and reality are two different things anyway - you are a kind of a genius, or you have at least a tremendous charm with this sign. You have many friends and an active social life. If you are detached in your love life - only in this aspect, since the rest of chart will confirm it or not - this is no big deal!

With Leo as a dominant sign, you naturally shine brightly. Your dignity, your sense of honour, and your generosity can almost turn you into a solar mythological hero, a knight or a lord from the ancient times. People may blame you for your selfishness, your pride or your somewhat loud authority, but if you are self-confident, kind-hearted and strong-willed, it surely makes up for your little flaws, as long as they remain moderate...

Your Dominant Houses

Houses 12, 1 and 10 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

The 12th house is emphasized in your chart: like the 8th house, it has a rich and complex meaning. Although its bad reputation is likely to scare most readers in the first place - it is indeed the house of hidden or isolated places, of solitude, of ordeals or enemies - it can also mean that a part of your life is very deep and intense. If your achievements are not visible in the public eye, you may fulfil yourself in a different but equally important way: you may be involved in secret activities, humanitarian causes, and projects in favour of disadvantaged people. You are likely to work in quiet and remote places. In many cases, you will gain from these hidden activities as many treasures as people who have a more public destiny. It may be because you sublimate your work, or only because you successfully carry out your task within your environment. There is no such things as a good or a bad house, because each area of life is necessary in its own way, and we need all of them, if we are to improve spiritually.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Taurus and your Ascendant is in Taurus

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

You are twice a Taurus! However, are you a peaceful ruminant, or a proud bull in its arena? As you have probably noticed, Taurus is often described in quite an ambivalent way. It is said to be calm, patient, with a nose for good bargains, and to deeply enjoy life. But it is also compared to a bulldozer with its hooves which can make the earth shake. Actually, this is quite easy to understand. Indeed, as Taurus becomes easily wrapped up in its passions or its obsessions, hence its well-known instinct of possession, it freely releases its enthusiasm and its determination. Taurus is perfectly well illustrated for instance with the person who is sensitive to criticisms, and who can spend the whole night working on his/her centre of interest, or who can focus on a challenging project for weeks. In a word, although it requires some time to get you started, once you get down to it, no one can stop you anymore. In the private

sphere, you can be likened to a tranquil and indifferent pasha who indulges in his sensual inclinations...

The sign and the Ascendant in Taurus

Peace, joy of life and sensuality are essential to you: You have a simple and quiet nature. You easily find happiness because you are not competitive. In addition, your relaxed attitude and your common sense always take you to places where you are happy, even though you are not the number one, even though you do not move in haste. The important thing for you is to construct, with patience and persistence. These two qualities yield strong, steadfast, and sustainable efforts that can withstand any pitfalls.

You are gentle, with a slow thinking process, but once you have opted for an orientation, nothing, no one, can make you change your mind. You loathe changes in general, and once you have taken the few major unavoidable decisions in the course of your life, you are on track!

As you are born under this sign, you are loyal, steadfast, strong, patient, enduring, persistent, attached, sensual, realistic, constructive, tenacious, with a strong need for security. But you may also be stubborn, rigid, possessive, materialistic, static and slow.

In love, Sir, more often than not, your passions are strong. It may take you some time to be moved, but once your choice is made, it is a lasting one and you are particularly endearing and loyal. You are not interested in infidelity or in having numerous partners.

Your love emerges slowly but it grows in depth, like a root which solidifies with time. You are not too romantic because you are so practical and conventional... but your style and your sexiness compensate for your lack of idealism. You tend to associate the concept of marriage with that of lifestyle or of the benefits that come with it.

Your physical urges are pressing; you are sensual and pleasure takes an important place in your life. You appreciate partners who cook like a cordon-bleu and who may cause a few gastronomic excesses, but you readily accept them.

The ruler of your chart is in Taurus

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of your Ascendant is in the same sign as your Sun and your Ascendant. This specific feature means that the Sun's characteristics previously delineated are strengthened.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, George Lucas. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Taurus Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Jupiter square Ascendant, orb 1° 16'

A dissonance between Jupiter and the Ascendant is not too serious, George Lucas. In some circumstances, it may cause your behaviour or your opinions to be a bit exaggerated when you are in society. Therefore, you may come across as too proud or excessive. It is up to you not to overdo, so as not to arouse your entourage's incomprehension. This excess may also translate into a marked taste for pleasures or good food...

★★★★☆ Venus conjunction Ascendant, orb 5° 26'

Owing to this conjunction of Venus with your Ascendant, your natural charm may wreak havoc, George Lucas. You tend to see the pleasant side of things, and this natural laid-back attitude is undeniably appreciated. Your cheerful behaviour favours the instinctive and positive rapport you establish with other people.

★★★★☆ Sun conjunction Ascendant, orb 6° 2'

The conjunction of the Sun with the Ascendant represents the perfect fusion of will and vitality, and will and external appearance, George Lucas. This conjunction indicates an above average charisma or magnetism. Moreover, there is a concentration of energy which enables you to naturally shine and attract, as well as to move mountains provided... you decide to do so!

★★★★☆ Neptune sesqui-quadrate Ascendant, orb -0° 33'

Neptune is in dissonance with your Ascendant, George Lucas. You may have difficulties in controlling your emotions, and you tend to hesitate about the behaviour to adopt in society. In some circumstances, you distrust everyone, yourself and other people, without knowing the reason why. Keep your feet on the ground and do not allow your imagination to carry you too far away from sheer reality! No one nurtures bad intentions towards you. This is something you must realise if you do not want to get worked up about... nothing.

★★★★☆ Moon square Ascendant, orb 5° 55'

Sometimes, George Lucas, your sensitivity clashes with the image you want to project. As a result, you may feel vulnerable and suffer if you let yourself be disheartened. Try to put things into perspective and to confront your emotions without fearing your external image. This is how you can compensate for this minor dissonance between the Moon and your Ascendant.

★★★★☆ Mercury conjunction Ascendant, orb 10° 23'

Your sense of communication and your intellectual process perfectly match your external appearance, George Lucas. Thanks to Mercury, you are able to carry out your self-analysis very well and quickly, which gives a lot of spontaneity to your intellectual exchanges with other people.

Your Sensitivity

Your sensitivity is devoid of infatuation or carelessness, George Lucas; you belong to the cerebral type and, due to your needs for inner security and for freedom, you consider feelings and emotions as burdens. You are apparently phlegmatic and almost detached. However, your swift reactivity and your fertile imagination make you appreciate friendly gatherings with numerous and varied exchanges. You do not wear your heart on your sleeve. At first, you seem cold but those who know you are aware of your very original and unique sense of humour. Your receptiveness is remarkable. Your observation talents and your detachment work wonders in the defence of your anti-conformist and rebellious ideas. Your stubbornness is obvious and it is very difficult to make you change your mind because you are affectively too vulnerable: it would require lengthy and thorough argumentations aiming at your intellect...

Your career or professional achievements, George Lucas, are fields where your emotions will be more easily channelled. You are often popular, especially with women, and you instinctively have the desire to please audiences or crowds.

Your fame is often due to your changeable side, light-hearted, emotional and moody sometimes. It also means that it is very likely that you experience professional changes several times during your life. Each time, you will contrive to be the star, in your way...

★★★★★ Moon square Venus, orb 0° 29'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★★★★★ Moon opposite Pluto, orb -4° 45'

This planetary configuration causes distrust (Plutonian distance) towards individuals, groups, or your own family environment (lunar values). It may bring about a feeling of affective or relational wound. The feeling of security is absent, or fragmented or illusive. How is it possible to feel integrated whereas you know that you are different and on your own? It is the myth of the « ugly duckling », with its different specific characteristics, an alien to its origins and its roots. It is important that you accept your differences and that you have them accepted by others, without forsaking your essential values. This is how you can exercise your group ownership without allowing them to exclude you or to repress your secret determinations. When this aspect is well integrated, it is a factor of lucidity for your emotions. You perceive without gullibility what is really at stake in your intimate relationships and the flaws of your environment. The fact that you do not readily trust people spares you many traps and delusions.

★★★★★ Moon trine Uranus, orb -3° 18'

This harmonious Moon-Uranus aspect indicates that your well being depends on the original quality of your charm and on new-ness. You are not influenced by prevailing trends and fashion. You have a personal view of what a balancing private life should be. You enjoy unexpected situations, even

extravagant ones. But if you feel that your living environment hampers your freedom, you suddenly change your attitudes and your habits. Independence is your true realm. You may show an exceptional inflexibility when your intimate life moves away from the patterns you need, deep down. Your entourage must get used to your demands and to the values you are determined to keep with all your might and on which you are uncompromising. This determination does not allow for a laid-back attitude, or an indolence that so often causes degradations. You keep your own daily rhythms under control.

★★★★★ Moon opposite Jupiter, orb -7° 12'

When this aspect is not well integrated, there is a tendency to conceal your true nature and to cheat on your true self. Appearance, emphasis and games hide the essence of your aspirations and may trouble your intimate life. Despite your apparent joviality, it is often difficult for you to live in conformity with your inner demands. Actually, it is difficult for you to reconcile your social life with your private life. The former excludes the latter. To properly integrate this aspect, you must learn to harmonize your external attitudes (social and professional ones) with your daily rhythms. It implies that, when you are in a trustworthy situation such as your family or your home, you accept to behave differently from when you are in a larger context, exposed to social stress. You must neither ignore them, nor should you favour them.

★★★★★ Moon sesqui-quadrate Saturn, orb -0° 55'

When this aspect is not well integrated, there is no feeling of integration and security. You feel that you are not understood or even, that you are rejected. It is difficult for you to find inner peace and tranquillity. You lack the quietness and the primordial confidence that would allow you to lay back and to be carried away and pampered by life. This configuration indicates questionings and doubts regarding the unconditional affection that each individual longs for. You do not trust the world. You tend to dismiss social models, as well as your close friends' attachment and tenderness, probably because you need to test them and to get the feeling of being loved that you naturally lack. It would be a mistake not to see that you desperately need affection. You are particularly vulnerable to relationship flaws and you strive to find the gestures of love that would allow you to let go and to be nurtured by life. In such a context, the sincerity you display, as you give or refuse your trust, is highly commendable.

Your Affectivity

In your chart, the Sun and Venus are both in Taurus. According to the Tradition, Venus rules Taurus and she thrives tremendously in her sign... in the Sun's company. More than anyone, you are prone to sentimental attachments and you need your loved one to be all yours, as much as you are hers. The attributes of Taurus are the instinct for self-preservation and a relative faithfulness in love and in hatred. Your inclinations and your repulsions are unvarying and you pay special attention to sensual relationships. Not everything makes sense, but everything is sense. In this regard, the Tradition is very clear: it talks about voluptuous pleasure and eroticism. When this configuration is well integrated, it produces the Epicurean, and a person made of desires. But on the negative side, lewdness is condemned, firmly or leniently, according to one's beliefs! More seriously, the Sun-Venus duet in Taurus gives precedence to love fulfilment and plenitude over discovery and first days' amazement. This is probably the basis of the stability your sign is credited with. But make no mistake: the desire to intensify, to retain and to fully enjoy the savour of your relationship makes you a demanding person.

There is so much voluptuousness and so much charm in your personality, George Lucas! You are what is

called a “nature” and when confidence is established, slowly but steadily, you become deeply attached to your partner and you can be filled with passion. It may take months, even years, but you are so generous and affectionate that, in most cases, your relationship has many chances to blossom, with time. You are very physical and sensual and you are very keen to delight in your intimate moments. This aspect of your amorous relationship usually contributes to its sustainability. Everything seems idyllic, George Lucas. It would be so if your jealousy and your possessiveness did not get started simultaneously with your powerful feelings. But you have so many assets, so be content!

George Lucas, whether you want it or not, you are the illustration of the famous French saying that: "To live happily, let's live in hiding!" Nothing suits you better than tranquillity, peace and, finally, to some extent, privacy in your love life. It may be caused by many different reasons, sometimes shyness, romanticism, modesty etc. but in any case, you are prone to experience love better in the clandestine mode. The legalization of your union, so often sought after by others, is something you dread more than anything else. You are romantic, secretive, even melancholy, sometimes, and you tend to sublimate or to spiritualize your feelings, with the effects of bringing about moments of affective loneliness that do not really take a toll on you. Indeed, you operate a sort of fatalistic association of love with ordeals in general: often, you meet with your soul mate during difficult circumstances or in a climate of sorrow. Is it due to your highly dedicated and loving nature, or to your innate goodness? Whatever the answer may be, you often establish serious links during such occasions. It may occur in a closed setting, a hospital or a convent, or a prison. Mysteriously enough, love is born and develops easily. You are a philanthropist with genuine compassion at the bottom of your soul and you give of your best when the period is filled with sorrows and doubts. You are among those who can commit themselves in all sincerity and fervour to charities. There, your feelings will certainly find a natural outlet, in so far as you are unable to express them strongly enough in your concrete love life. In spite of your misleading appearances, you are rather the shy and reserved kind in the very intimate area of feelings but you are so nice, dedicated and generous that you are not any worse off than others: you successfully turn your ordeals into periods of personal enrichment and beneficial growth, on the spiritual plane as well as for your destiny. Besides, you are blessed with a kind of protection against life hardships. The ravages of loneliness have absolutely no effect on you, to your close relations' deep astonishment.

★★★★☆ Mercury conjunction Venus, orb 4° 57'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitise to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

★★★☆☆ Venus square Pluto, orb -5° 14'

Nothing is simple in love. You consider your love life with a distant and remote glance. You do not believe in obvious, transparent relationships. Love is a complex issue and its machinery is beyond you. To avoid delusions and indifference, the rules must be changed. Your feelings are alternately cruel and passionate, distant and burning, often paradoxical. Are you the executioner or the victim? Power

struggles are omnipresent in your affective life. You seem unable to take life as it comes and to love without asking yourself questions, without doubting. You often love those who are indifferent towards you, while you despise those who love you. It is important that you change your attitude if you want a smooth and happy life. Rely on your forte: an indisputable lucidity that makes it impossible to delude your heart.

★★★★★ Venus square Jupiter, orb 6° 42'

This Venus-Jupiter dissonance indicates a strong will to seduce. However, there may be discrepancies between your words and your actions, as well as between your behaviour and your instinctive reactions. You may be carried away by a maelstrom of emotions, feelings and pleasures and you do not consider the possible consequences of your superficial attitude. Therefore, the apparent state of grace may turn into delusion. Proprieties and necessities of the moment forbid you to experience your desires. What you deem reasonable does not suit your heart's impulses. What a dilemma... Hopefully, as time goes by, you may reconcile your desires, your life patterns and the reasons of your heart with those of your mind.

★★★★★ Venus semi-square Saturn, orb -1° 25'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

The Way You Take Action and Your Sexuality

It is difficult to find a more sensitive person than you, George Lucas. You are able to contain your aggressiveness and it may be hard for you to exteriorize your feelings. You are usually passive and you draw your strength from inertia and resistance more than from the will to take action. Your mood is changing, you show little of yourself and you may surprise with your inopportune reactions that come late, when people have forgotten what it was all about. The only area where you express yourself with zeal and where your actions are successful is the area of home or, more symbolically, in the fields where you can achieve security. In other words, you need to feel comfortable before you can move, in concrete matters as well as in sexuality.

Your entourage becomes quickly aware of your liveliness and of... your contentious and witty mind, George Lucas. Your energy efficiently focuses on communication, writing, verbal jousting, speeches, etc. but also on the numerous short trips you make to meet with people.

For you, to take action means to communicate, to convince, to accumulate contacts and, somehow, to assert yourself as you hold sway over your entourage. You may be restless. You think that communication is the basis of any progress and that it is much more useful than any direct initiative: in your opinion, if people are convinced, everything else always follows naturally.

Your siblings, if you have any, have probably felt the warrior hint in the way you communicate. As you mature, you may learn to tone down your manners as soon as someone is around...

★★★★★ Sun sextile Mars, orb 1° 49'

This planetary Sun-Mars aspect reinforces courage, determination and energy. The need for action is obvious. Whatever your will designs is implemented with fieriness, despite all oppositions. You are decisive and wilful, even foolhardy. Your behaviour may be heroic: you know how to face adversity, to stand for your rights and your decisions, regardless of the confrontations you may have to cope with. The only danger may be that you overestimate your chances and your strength. But your audacity turns out to be rewarding, more often than not.

★★★★★ Mars semi-sextile Saturn, orb 0'

Persistent action always bears fruit eventually. All that is needed is patience... A quality you have, undoubtedly. As confrontations become unavoidable, you show strong persistence and indisputable perseverance. Potential obstacles are more stimulating to you than they are discouraging. You are naturally fit for effort and for confronting realities and facts. You quickly overcome difficulties and you respond to crises in an efficient and considerate manner. You are enduring. You handle events with rigour and precision. These are valuable qualities nowadays, for they often come with the capacity to undertake adventurous experiences and to take limited risks!

Your Intellect and Your Communication Style

Your mind is calm and balanced; even though you assimilate slowly, your memory is remarkable. Your judgment is based on reflection and reason and draws on past experiences. George Lucas, you are a good adviser, a reliable person whom people can confide in discreetly. You are full of good sense, cautious, methodical and disciplined and you are able to carry many good projects to a successful conclusion. You are very opinionated and determined in your actions. However, your tendency for intolerance and prejudices may offend your entourage. They wish that you exercised more flexibility instead of systematically refusing what cannot be immediately checked. You usually express yourself with a lot of charm and this is what allows you to get people to better accept your well-established habits.

Your thoughts remain often secretive, George Lucas, and you communicate in a discreet and sober way. The reasons may be your upbringing or your temperament. Actually, you may be interested in noble and compassionate goals, and of course, you don't advertise them.

Your strength lies in your steady concentration and your adaptability to ordeals. You are quite mysterious, interested in humanitarian issues. Your intellectual vision is strangely tinted with some form of mysticism and individual withdrawal.

Let's say that you enjoy communication and thinking, although you don't want others to notice it. The power behind the throne, somehow.

★★★★★ Mercury square Pluto, orb -0° 17'

Forget simplicity! You definitely enjoy acting behind the scenes and dealing with what is going on underneath. You play games and you operate in the dark. You leave the front of the stage to others and to the gullible ones. You don't display much sociability. When you are nice, it is because you are looking

for flaws. This Mercury-Pluto dissonance mingles unconscious fantasies with reality. When it is kept under control, this aspect becomes an unparalleled source of discernment. To that aim, you must overcome your strong tendency for provocations. It is certainly amusing to play destabilizing games but it may also be dangerous. Keep this treatment for your opponents only.

★★★★★ Moon square Mercury, orb -4° 27'

The Moon suggests relaxation, whereas Mercury implies a discoverer's mind. They both make sense and each one requires special attention, as they are sometimes upsetting. This Moon-Mercury aspect is likely to bring about nervousness or instability. Nervousness stems from the multiplication of the spots of interest and the perpetual restlessness of your mind, which prevents relaxation and well being from settling in. The outside world constantly appeals to your attention and you shift from one issue to another, to the detriment of your tranquillity. Therefore, it is important that you find the balance between two antinomial attitudes: letting-go versus curiosity, tranquillity versus communication. The new persons you meet with are not necessarily trustworthy and there is no certainty that the contact is harmonious. It is important that you use both influences alternately.

★★★★★ Mercury bi-quintile Neptune, orb 0° 5'

Your sense of psychology and of human intimate mechanisms is acutely developed. Your relations are nuanced, clever and guided by a good intuition of individuals. Without effort, you pick up what is at stake in relationships and in contacts. Your « sixth sense » inspires you and may take you into strange roads. On the relations' plane, there is an indisputable subtlety. You know what you should not say or, on the contrary, you naturally find the suitable words. Your natural and non-rational attitudes often prove right. The unknown fascinates you... Your curiosity for occultism and mystery is keen. Besides, life is a huge human enigma for you.

★★★★★ Mercury semi-sextile Uranus, orb 1° 09'

Your state of mind is innovative and turns the surrounding world into a constantly moving field of experiences. You ask relevant questions ... and you answer them. Although you are flexible when you ought to, your principles and your beliefs are unwavering. It seems difficult to catch you off your guard. You multiply observations, relationships, contacts and you never lose face: actually, your mobility hides an unshakable determination and a deep lucidity. In a split second, you are able to catch the useful information or the enriching relationship. The original and fanciful steps you take exclude monotony. Your approach to life is amazing!

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 1st House

Willpower and appearance united! You are so lucky, George Lucas, that your inner self and your behaviour merge to increase your energy and your vitality. Since the Sun represents your self-assertiveness and your profound personality, he expresses itself best when this configuration is strongly featured. Indeed, you form a whole block and there is no discrepancy between your real identity, as perceived by you and your close friends, and the image you project.

With this nice association, your behaviour matches your true nature. You act externally according to your willpower, without filter, nor reservation. It endows you with a wilful, personal and magnetic

temperament. You attract, you charm and when you are in the middle of a crowd or a meeting, your personality stands out with depth and brilliance because you have the kind of radiance and warmth that can never go unnoticed.

With this configuration, the only goal in your life is to assert yourself, proudly and decidedly, through what you are and through your actions, everywhere you go. Your ambition is to experience your temperament to the fullest, in all areas. You are sheer energy in motion. There is no gap between the image you project and your real self and for this reason, your inner qualities are never wasted.

The other side of the coin is that people may find that you are self-centered and that you do not take people's opinions into account... Practice some humility if you can, because too much magnetism may arouse fears in people who do not know you yet.

The ruler of your chart is in the 12th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 12th House, George Lucas. Your private and inner life is of utmost importance to you. "To have a happy life, live unexposed" is a proverb that you can apply to yourself. You are particularly fond of quietness, and sometimes even of solitude. You steer clear of agitation and hubbub, and you prefer to dedicate yourself to values you deem essential, without making any noise.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★☆ Mars opposite Midheaven, orb -3° 36'

This opposition of Mars to your Midheaven can be summed up as follows, George Lucas: you express your dynamism more in your private spheres than in your professional circles, or "outside". In society, your audacity may sometimes be felt as aggressive, even though you do not mean it. Perhaps you should show more gentleness, so that your courage and efforts become synonymous with efficiency and success.

★★★★☆ Neptune trine Midheaven, orb -2° 4'

Thanks to this soft aspect of Neptune to your Midheaven, George Lucas, your intuition is very sharp, as far as your possibilities for success are concerned. Thus, you have no difficulties in finding your professional or social path, and your nose tells you whether something is good or not for you, even before you start to analyse it. Your imagination and your visionary qualities accompany you along your journey towards success.

★★★☆☆ Sun square Jupiter, orb -5° 03'

This Sun-Jupiter aspect indicates a strong desire for social and professional integration but it may cause a few difficulties of expression in that regard, owing to excesses or immoderation. There may be discrepancies between your objectives and the means implemented to achieve them. The danger of this configuration may be that you forsake an essential part of yourself for some ambitious but out of proportion plan. Too many efforts of adaptation and an excess of opportunism may make you miss the

target. It is important that you remain true to your values and that you do not seek, at any cost, to adjust your attitudes to the situation. However, do not fall into the opposite trap: a need for the absolute that forbids compromises, although they are so necessary. You must reconcile idealism with the demands of the moment, the respect for principles with the sense of timeliness. When this configuration is not well integrated, things get out of hand. Extravagances are glaring. They may translate into an exuberant, overly demonstrative disposition. Personal ambition turns into pride, and joviality becomes immoderation. Outbursts of anger are frequent. However, in a reserved and cautious context, this configuration reveals its positive nature.

★★★★★ Sun trine Midheaven, orb -5° 25'

In the professional and social status areas, George Lucas, you know what you want, and you know how to cleverly obtain it. Because the Sun and your Midheaven are in agreement in your natal chart, you have no qualms and no hesitations when it comes to defining the strategy for reaching your goal.

★★★★★ Pluto opposite Midheaven, orb -7° 32'

Pluto is in opposition to your Midheaven, George Lucas. Strictly speaking, this is not a dissonance since at the same time, Pluto is in conjunction with your Imum Coeli which symbolises your roots, the home where you were born, childhood, and your family. This configuration may indicate that transformations and upheavals affecting your career are finally less important to you than those occurring in your home, or at least, that values associated with the place where you dwell, or your family, are particularly sensitive and important to you. Since Pluto is a collective planet, you usually "undergo" removals more than you choose them. This statement has no negative meaning. Home is a place that is almost magnetically loaded, where you may strongly feel the values of "power" and domination among the members of your family. There is also the possibility that you are willing to wield this power within your close friends, at home.

★★★★★ Sun trine Neptune, orb 8° 06'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★★ Sun quintile Pluto, orb 0° 58'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

Your Assets and Your Part of Joviality

Your charisma, your natural authority, and your generosity are favoured with this position, George Lucas. The devil takes pettiness: you think big and generously. You have a natural propensity to look at things pleasantly, although it often means that you put yourself at the forefront. Children appreciate you, and people in general are sensitive to your charm. Even if the rest of your chart indicates introversion, this position highlights the warmth of your personality. So much to your credit! If you are extroverted, you must beware of the danger of vanity.

Oh! The family! It is of utmost importance to you, George Lucas, and you are happy there. Besides, the planet of Greater Fortune here gives you all the assets you need to successfully build a harmonious, secure, and comfortable home. Your private life is favoured. You feel naturally attracted to matters dealing with soil, stones, and real estate.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Leo gives you a strong inclination for luxury, arts, parties and shows: your nature is fond of leisure, preferably in noble, proud, even dramatic ways. You feel comfortable in the field of entertainment. You love children, laughters and splendour... Your creativity is often remarkable.

Your Serious Side

Your liveliness and your superficiality are slowly transformed into secondarity, profundity of reflection, and interest for knowledge, contacts and logic.

Financial affairs, and more particularly, your earning capacity, constitute the challenges of your life, George Lucas. In this area, your practical sense is not too good and remains to be improved. This is the first thing you should work in order to progress and to gain self-confidence.

You are distrustful and you spend too much time analyzing before taking action by yourself; you must understand that, to be able to win, you must accept to lose, to take risks, and to give for the sake of giving. There is no other way out. As time goes by, you use your persistence to gain material security and to steady the flow of your income in order to overcome feelings of frustration.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what

follows.

Saturn in Gemini decreases your lightness, your frivolousness and your heedless. You become more thoughtful, more concentrate and you learn to deeply funnel your ideals; your practical sense is increased, your concern for punctuality and your thirst for precision are reinforced.

A Few Special Points

Your Uniqueness and Your Utopias

You are an original person, sometimes eccentric, even extravagant, and your actions or your words are always surprising. The expression of your humour is out of touch with reality and unpredictable. Most of the times, things are fine and you radiate with a peculiar and very special charm. With you, it is impossible to get bored!

Your will to behave differently from the mass of your fellow men and to assert your independence is part of your pride. Be wary that it does not backfire on you. It would be a pity if excessive unpredictability made you appear as... bizarre!

Your Inspiration and Your Illusions

Your approach to daily life and your behaviour in your work environment are whimsical and abide by one single law: your mood or your feelings of the moment!

Although it may be detrimental to your own organization, it also endows you with qualities such as being easy-going, helpful, and ready to give assistance to those whom you perceive as nice persons.

Your health is quite fragile and, if the emotional sphere is unsatisfactory, you may transfer your moods to the physical plane and, for instance, you may be affected by allergies or problems difficult to identify.

Your Passion and Your Authority

In general, your childhood was under stress, for many different reasons. Your early life was not very easy, and you probably felt a deep anxiety for reasons... that were not always real.

In your intimate and private sphere, when you feel in confidence, you may be domineering and authoritarian, whereas in public, you never show this facet of your personality.

Your sensitivity is acute, and you may be affected by trivial things without ever displaying your hurt feelings. But as you mature, your finesse becomes an asset instead of an element of vulnerability.

Symbolically, according to the Tradition, your father was authoritarian or domineering. This is not always true, but this is how you perceived him when you were a child.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, George Lucas, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

George Lucas, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

George Lucas, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, George Lucas, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, George Lucas: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, George Lucas: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive man. Indeed, angular houses are said to generate impulses and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, George Lucas: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your entourage respects your manner: you belong to the category of persons who arouse their close friends' consideration because of their straightforward, sometimes rigid attitude. The concern that you must "maintain your rank" may increase the severity of your judgments and lead to intransigence. You are sensitive to the prestige of your social standing and you show an acute sense of responsibilities since your youth. You become an adult early in life and you always avoid dependency. Your life's challenge is to learn to handle your intimate and family life as well as you manage your career. In the private sphere, you may undergo difficulties: you are a real loner and you turn down any help and affection offered by your entourage. You deny yourself the sweetness of a comfortable and reassuring home. However, as time goes by, you will overcome your reluctance and you will allow what you most value, deep down: love and tenderness to blossom within a privileged relationship, within a family...

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You are a person thirsting for precision and perfection. Your rebellions are frequent: any mechanism that is not running perfectly smoothly is dismissed. Any person whose attitudes seem inconsistent becomes the object of your refusal. Better than anyone else, you can ridicule social stereotyped models, too conventional and ineffective. It is likely that you often succeed in giving a logical dimension to the craziest situations.

One of the main drives of your life is your rejection of mediocrity: the intention is commendable

although it is two-edged. You attach so much importance to charisma that you may reject a person whom you deem – wrongly – unworthy of your esteem! If you avoid this trap, the requirements that you demand from yourself as well as from your close friends become an exceptional springboard for evolution.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 5th house: to you, success means to create, to produce a fruit or a work, or to give birth to a child. Being in this world does not content you; you need "to do", to design, to live hand-to-hand with your surroundings. You are sensitive to power and you want to arouse esteem and admiration in your entourage.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The planet Mercury was retrograde on the day of your birth. You probably have to make an effort to harmonize your relations: you are prone to screen others with a critical eye and you do not overlook the slightest flaw. You are exceedingly clear-sighted and you approach your contemporaries with distance rather than with natural. This type of behaviour may be an asset: your enquiring and pernickety mind prevents you from being too gullible. However, your reservations may impede your communication. As time goes by, you learn to establish contacts more spontaneously. During your childhood, you faced problems of expression in your heart of hearts: your doubts prompted you to project an image that was out of touch with the reality... turbulent or withdrawn, you could hardly establish conventional ties. As an adult, you are in a better control of these elements. You still have to find the right way to tell who you really are: this is how you can improve your relationships.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
