## Solar Revolution 2018/2019 for Scarlett

### Introduction

This 2018/2019 Solar Revolution is valid from one birthday date to the next, from 22 November 2018 au 22 November 2019 for you. It has been computed for your future presence in New York (New York), New York, on 22 November 2018 à 12h51, (the exact moment of the Solar Revolution does not necessarily match your legal birthday date).

It is indispensable to take into account the natal aspects which are repeated in the Solar Return chart. Should it be otherwise, the Solar Return (SR) affects the inner plane and is not very likely to bring about tangible events. The effect of a SR is to "wake up" or activate the potential inscribed in the natal chart. Nothing, or very little, can occur which is not rooted in the symbolism of the natal chart.

As a secondary comment, we believe that it is necessary to be careful not to give too much credit to the principle and the meaning of the planetary dominants found in the SR chart. Indeed, since each author has his/her own method, there may be differences among rating systems used and thus, ranking of planetary dominants may vary. As a result, the interpretation may be slightly distorted.

The SR chart describes the astrological climate of the year starting on your birthday, with its assets and weaknesses. More than a predictive method, it is a comprehension tool which sheds light on the evolution of your personality. It enables you to seize opportunities to blossom, and it helps to avoid traps. It is necessary that you adjust your life context to the situations explained in this Report. Indeed, everyone can take charge of one's life in order to change the nature of an event, grab dormant opportunities, or overcome hurdles. After completing the analysis of your planetary dominants and the assessment of your SR Ascendant (these components give information on psychological trends prevailing throughout the year), we compare your natal and SR charts in order to identify the type of climate in which your life is most likely to unfold during this specific timeframe. Lastly, we review your planetary aspects in order to pinpoint possible opportunities and dangers.

# *Introduction*

Please, also bear in mind that forecasting is first and foremost done using the transit technique, and that this Solar Return Report must be considered as its complement. Indeed, SR forecasts may be less reliable than transit forecasts, and therefore, the former should be taken with a few reservations, although it has numerous proponents, and it is definitely a valuable technique. For all its passionate partisans, the SR Report constitutes a fully fledged forecast. Nonetheless, we recommend that you read it in addition to your yearly forecast, established on the basis of your transits, and that you consider it as the main Report.

## Your Solar Revolution 2018/2019

### Neptune is one of the planetary dominants of your Solar Revolution chart

You heed your inspirations and your deep intuitions. Rightly or wrongly, you feel that some external and providential help will get you out of the confusion in which you evolve. Thus, you tend to be passive and to let events follow on each other without raising a finger to change their course. Your philosophy is that what is meant to be will be, and that it is not advisable to thwart the unfolding of facts. Your attitude has a double-edge. On the one hand, the year may be marked by strokes of good luck and happy, almost magical outcomes, on the other hand, periods of irrational behaviour may throw you into situations that are as uncontrollable as unexpected. Letting-go has its virtues and its dangers. The prevailing characteristics of this year is that it favours the blooming of a vocation, and the budding of a desire to act in conformity with your heart of hearts and your true motivations, regardless of people's requests and expectations. Intuition and sensitivity show your way more reliably than sacrosanct reason.

### Mars is one of the planetary dominants of your Solar Revolution chart

This year, you demonstrate dynamism and entrepreneurial skills. You need to take action, sometimes to struggle in order to reach your ends. Without fearing confrontations, you disrupt the habits of your entourage. It is certain that impulsiveness may lead you to take untimely and thoughtless actions. However, energy and determination enable you to break quite many deadlocks. You face reality head on, and you display a fieriness which is bound to turn into ill-timed fits of anger. Beware of damages, in many cases. Nevertheless, your increased fighting spirit proves valuable when the prevailing context seems stuck. You obtain what you need, even though it implies that you must confront your entourage. Your heroic attitude is double-edged... Indeed, some circumstances require more tact and diplomacy. In any case, you know how to face events with strength and energy, if not with wisdom.

## Your Natal And Solar Revolution Chart

Houses indicate in which areas each planet expresses its function. The natal houses where the SR Ascendant and SR Midheaven are posited are of utmost importance and indicate the sectors on which you focus your activities. The values symbolised by the tenanted houses are the best assets you should rely on in order to harmoniously experience the energies of your SR chart.

# Your Solar Revolution

## The Solar Revolution Ascendant in House III

The main focus of this year is on communication and short trips. You establish new, varied, and enriching contacts. This year is auspicious for encounters and exchanges of ideas in general. The time to go it alone is definitely over. Now, it is important to use the trump cards constituted by your relationships. Dialogues turn out to be particularly fruitful because they take an increased importance owing to the situation. Mobility remains at the core of your concerns: yesterday inertia gives way to real overtures. You may take the initiative to make frequent short trips, or to renew the range of your activities. More than ever, you need to rely on your close friends, your siblings and your immediate neighbourhood. This is a year for communication that proves tremendously enriching on the human plane... of course, if you know how to take advantage of the opportunities offered to you, such as encounters, interviews, etc. There is one last point worth underlining. Your curiosity and your open-mindedness turn out to be helpful in all initiatives related to learning, studying, or training. The only danger is that you may get scattered. Indeed, as you keep on embracing many new projects and discoveries, you may lose sight of your current line of conduct.

## The Solar Revolution Midheaven in House I

The main focus of this year is on your personal development and new initiatives. You take drastic decisions, while clearly knowing where you are heading towards and which line of conduct you must adopt. You take straightforward actions, without beating about the bush, and without accepting lame compromise. Your social and professional life becomes easier to manage because your choices are clear and unwavering. Far away from yesterday hesitations, you earn the esteem and consideration of your entourage as you show them your true face. Your motto? Masks off! Of course, such an attitude is not devoid of danger, particularly that of redefining the very foundations of your life and disavowing values which, so far, have maintained a balance in your life. Changes of direction are sometimes the origins of errors or misunderstandings. Events prompt you to give your life a new turn, or even to start afresh on the basis of rethought and reshaped principles. On many accounts, this is a decisive year, and it is very likely that it is useless to cling to habits which, from now on, definitely belong to the past.

## The Solar Revolution Ascendant

The SR Ascendant often differs from your natal Ascendant. The SR Ascendant is the sign rising on the horizon at the very moment of your astrological birthday (when the Sun is posited at the exact point of the Zodiac he occupied at the moment of your birth). Your personality takes on the characteristics of the rising sign for the whole year. The SR Ascendant describes the nuances of the human character in perpetual evolution.

### Your Solar Revolution Ascendant: Pisces

The Ascendant of your SR chart, not to be mistaken for your natal Ascendant, is posited in Pisces. You are more sensitive to matters involving secluded places, spirituality or idealism. This configuration suggests the end of a cycle and the abandonment of obsolete values for an unknown destiny and new, still dormant objectives. This year, you are impressionable and particularly sensitive to the flaws of your life. Uncertainties cannot stop you. Your intuition seems sharpened, and your deep sensitivity enables you to naturally perceive what other people understand through analysis. Therefore, it is very unlikely that you follow established standards or social and educational models. Instead, you prefer to opt for a more personal path. You subtly move away from your past. What seemed so important to you yesterday provokes but indifference or disinterest now. This period promises to be constructive if your life context lends itself to sacrifices or disavowals. However, the danger may be that a feeling of isolation is brought about by your desires for autonomy and the fact that you distance yourself from deeply rooted values. This may be the price to pay for a necessary skin sloughing.

## The Aspects of the Solar Revolution

The aspects of your SR chart describe the relationships among planets. They may be harmonious (trines, sextiles), tense (squares, oppositions) or ambivalent (conjunctions). They give information on opportunities to seize, or possible hurdles to overcome. They imply no inexorable sense of fatality whatsoever, since free will can significantly change the course of events. The strength of each aspect is indicated by stars, from \* (mild) to \*\*\*\*\* (potent, very meaningful configuration).

★★★★★ Conjunction ♃ Jupiter ☉ Sun, orb 2°46'

You can give your projects a new impetus and jump at opportunities when they arise. Your presence of mind immediately proves to be a valuable asset in the social and professional spheres. When it is well integrated, this planetary configuration awakens your ideals. Then, you nurture projects and you mobilize the energy needed for their implementation. You know where you

# Your Solar Revolution

are heading to and how to overcome your entourage's possible resistances. It is likely that your choices will prevail and that you will be successfully integrated in a setting that acknowledges your merits and your abilities. You are deemed trustworthy and doors are thrown open... everything seems simple, perhaps too simple: the danger lies in an exaggerated optimism and an overestimation of your chances of success. Your major asset is a state of mind that allows you to obtain what you have been dreaming of, so far without believing that it could ever come true. Malicious gossips may say that the optimism that allows you to break deadlocks is but an extreme form of opportunism. In any case, it is the right time to undertake what you have never been able to achieve. Events prompt you to get over limitations and borders and to excel yourself. It is likely that your entourage - and your specific way of taking advantage of it - are involved. More than ever, your pragmatism turns out to pay off.

## ★★★★★ Square ♃ Jupiter ♂ Mars, orb 1°04'

You never miss an opportunity to be noticed through spectacular actions or raucous demonstrations of your qualities. You need to express your will with force, brilliance and panache. However, the danger may be to overdo, to offend your close friends and to wear off their patience! Do not overestimate your chances of success and do avoid excess and tactlessness. With this planetary configuration, you are inclined to take unsuitable actions. The reason is probably that you don't evaluate the concrete situation properly. As heroic as your ambitions may be, it is likely that you have to endure a few delusions. The verdict of the facts is often final. Under such circumstances, it is essential that you learn to exercise some patience and wait for the right time before you undertake the steps you are dreaming of. Wait until the fruit is ripe before you pick it, until the situation becomes more favourable to the success of your plans.

## ★★★★★ Opposition ♅ Uranus ♀ Venus, orb 3°24'

Attachment is attributed to Venus, and liberation to Uranus. Sensual delight to the former, discipline and rigour to the latter. These two contradictory principles clash under such skies. It is likely that you find it hard to reconcile desires and affective needs with the demand for autonomy that you now claim outloud. A thunderbolt in your romantic life is to be dreaded. However, some people enjoy it. Events upset your habits and trouble your serenity. It is difficult for you to resist your heart's impulses and untimely passions, which may challenge your affectivity. You need fresh air and freedom. You want to fully experience your concepts about love, whatever it may cost you. Your heart has got its reasons that no rule can hinder or thwart. Nevertheless, this influence may prove healthy when too many fetters or constraints are smothering a couple's life that has become overwhelming. You simplify, you prune unhealthy branches in order to give free rein to your feelings. It is quite dangerous, of course, but not necessarily negative: personal assertion has a

# Your Solar Revolution

price that you are willing to pay. For worse, or more often than not, for the best part of yourself.

★★★★★ Square ♃ Neptune ♀ Mercury, orb 2°54'

Your intuition is a dangerous guide. Everything seems simple. However, the euphoria of the moment conceals an implacable reality. An unexpected solution may prove disappointing. You should beware of miracle cures and external help. Miracle is but a mirage. Your illusions are likely to vanish into thin air before long. Therefore, it is better to keep cool and not let fantastic promises get to your head. Words are often far from reality. However, insignificant discussions may conceal important stakes. It may be a dialogue that questions your quiet certainties or a new, unavoidable fact, or an encounter that forces you to redefine the rules of the game. In any case, in the relationship area, issues become clouded. You must remain vigilant, lest you fall under the spell of deceitful words and promises. This is the time for disconcerting experiences and interpersonal tests that offer unexpected prospects... or clumsy or extreme behaviour that closes all doors.

★★★★★ Square ♂ Mars ☉ Sun, orb 3°51'

Heroism is valuable, provided it is relevant to the situation. Otherwise, your attitudes, as honest and direct as they may be, may only worsen existing tensions. Things speed up and if the situation is stuck, you manage to forcefully break the deadlock. You lack neither energy nor fighting spirit. But it is likely that you will often take action at an inopportune moment and be carried away by impulsive and thoughtless initiatives. Therefore, this period may be filled with regrettable incidents. You are prone to make blunders. Beware of clumsiness, take advantage of your punch and your fighting spirit but don't start anything that cannot be undone and don't handle your entourage roughly. More than ever, you must calm things down and dispel misunderstandings because an uncontrolled skid is bound to happen. Do not get carried away by any provocation, or by your own determination to sort out problems and to put an end to disputes once for all. Other periods are more suitable for these final settlements... For the time being, try to make use of your exacerbated fighting spirit as wisely as possible.

★★★★★ Trine ♇ Pluto ☾ Moon, orb 4°33'

You step back from your private life and your family sphere. With subtlety and almost without your knowing it, your attitudes are changing. Unknown values or preoccupations are suddenly highlighted. In short, you are shedding skin. You are more clear-sighted and you understand the real stakes in your intimate life. This is a strange period, marked by slow transformations, not spectacular ones but deep and essential. You will become less vulnerable, less sensitive to small details that would have thrown you out of balance, not so

# Your Solar Revolution

long ago. You even reach a deep serenity that is more related to indifference than to letting-go. Nothing seems to hinder your will to avoid surrounding parasites. The traps of this configuration? Some degree of isolation and an excessive distance from people whom yesterday you considered your "close friends". Without challenging your new peace of mind, you must be careful not to under-estimate troublesome elements. Indeed, as one decides that nothing is of real importance, one may expose oneself to a few deceits. Nevertheless, there is another very positive point that is worth underlining. More than ever, you have the ability to clear-sightedly manage your intimate life, in your own ways.

## ★★★★★ Sextile ♃ Saturn ♂ Mars, orb 2°43'

You demonstrate tenacity in your activities. This period favours long-term enterprises and projects requiring patience and persistence. Your strength lies in your capacity to adjust to difficult circumstances. You reach your aims without shrinking from effort, without allowing hurdles to dishearten you. You leave to others the easy task to accomplish hit-and-run actions, as you prefer to entirely dedicate yourself to achieving objectives you have pondered over at length. This period is excellent for brand new experiences, just "to see". It is also the good moment to test people whose motivations you don't know yet. You behave empirically but efficiently and you don't need sophisticated concepts or complicated reflection, since your attitudes are dictated by facts. You cope with all possible pitfalls and you calmly resist external pressures. More than ever, you feel that you are able to tackle all upcoming crises, to get out of the rut and to handle your life without being overwhelmed by events.

## ★★★☆☆ Opposition ☾ Moon ☼ Sun, orb 6°23'

Several glitches may affect your popularity during this period. Some facets of your personality may be misunderstood by people, and as a result, your public image might be quite tarnished. You ought to redouble your efforts in order to ensure that the consequences of this decline in popularity is only transient!

## ★★★★★ Conjunction ♃ Jupiter ♀ Mercury, orb 7°38'

This period favours fruitful relations and useful dialogues. You easily mobilize your adaptation and insertion abilities. You display more diplomacy than ever, you make the most of your contacts and you make use of your improvisation skills. The influence favours any sensitive enterprise requiring persuasion powers. You charm and convince your entourage. Business or commercial initiatives are also protected... if your life context agrees, of course. You enjoy some degree of relaxation because you try to negotiate and dispel surrounding tensions. Social life prevails over individualism and personal plans. You are likely to make an encounter that offers new prospects, an agreement or a

# Your Solar Revolution

contract. In order to make the most of your current negotiations, you must constantly remain clear-sighted during your debates. Your open-mindedness may bring about amazing prospects.

★★★★★ Sextile ♃ Uranus ♂ Mars, orb 4°48'

This planetary configuration prompts you to cross some boundaries and give a new impetus to your life. You strive to assert your ideas and to impose them by all means. Your strong determination can overcome hurdles. You don't hesitate to take risks. It is in quite an unexpected way that you strike your blow and you leave your opponents a long way behind you. During this period, you are in control of hit-and-run actions and trials of strength that have matured in the dark. Thunderbolts, sudden and dramatic demonstrations are to be expected. This period favours all sorts of forceful initiatives. You find yourself your own means to take action and concretely express what you really want, deep down. Your unyielding willpower and your desire for action blend their effects here, with an exceptional fighting spirit as a result. Whoever tries to thwart your action is in trouble! The only danger may be that you go too far. Or a bit too fast.

★★★★★ Square ♂ Mars ♀ Mercury, orb 6°33'

Electricity can be felt in the air! Your impulsiveness does not facilitate smooth relations and contacts. You are prone to verbal clumsiness and thoughtless actions. Your state of mind brings about criticisms and controversy. If you cannot take action, you will probably demonstrate verbal violence. If, on the contrary, you cannot explain yourself honestly, your foolish actions will probably provoke forceful events. Beware of all kinds of blunders! It is certain that this climate favours latent conflicts that are likely to break out in broad daylight, forcing straightforward and constructive explanations to take place. But as we all know, settling of scores is not devoid of danger. For instance, there is the danger to overstep the line, at least verbally, and to utter loud and clear words that you had better kept to yourself. Therefore, even though you feel the urge to interfere, you must control yourself and strive to count to ten before you shout out words that cause irreversible harm. This is how you can get the best of this planetary configuration: straightforwardness that dispels many a misunderstanding.

★★★★★ Square ♇ Pluto ♀ Venus, orb 6°35'

The astrological Tradition, more moralistic than any other, insistently underlines the dangers of a Pluto-Venus hard aspect: deprivation, dark conspiracy, plot or corruption! As always, the truth is more complex. Actually, nothing is simple in love, especially during this period. Your usual landmarks don't work any more. You consider affective matters with different eyes. You don't believe any more in a simple, obvious, clear relationship, devoid of

# Your Solar Revolution

problems. The machinery of your love life is beyond you, temporarily. In order to avoid indifference or delusion, you try to reinvent the rules of the game. It is likely that your feelings will be alternately cruel and passionate, distant and burning. Your attitude is paradoxical and, in order to win your partner's love, you behave in disconcerting and secretive ways. It is because nothing must be based on basic conventions. You seek an inaccessible truth, a different Sun, a new scale of values and you loftily ignore models and facts. An attitude utterly perilous, but so intense and exciting...

★★★★★ **Conjunction** ♃ Neptune ♂ Mars, orb 9°27'

You feel that you are carried by an ideal or a mission. During this period, you show exemplary dedication towards a cause that may be utopian. You need to live your passions and to make your dreams come true. Although your objectives seem difficult to reach, you keep your faith. It may produce disconcerting and dramatic actions. You don't hesitate to make sacrifices in order to achieve your goals. A sweet euphoria excites your will to undertake. It is likely that you are able to take risks even though you do not control the sequence of events. Do not let yourself be carried away by your "intimate convictions", unless you have clear-sightedly considered the consequences of your actions. In any case, during this period, you can conquer high summits and your behaviour may be more heroic than usual. If you find the experience appealing, it is the right time for the conquest of objectives that seemed to be out of your reach, only yesterday. Passion and faith accomplish miracles, at times!

★★★★★ **Opposition** ♃ Jupiter ☾ Moon, orb 9°10'

As you are looking for a different life pace and a lifestyle offering more conveniences, you may be lured into apparent and illusory easiness. Peace of mind has got a cost... how is it possible to spend without wasting, to increase one's comfort without disrupting the surrounding balance? Indeed, you seek more comfort, "more and immediately". However, events may prove you wrong. You want to get rid of complications, once for all. Fine. But are your solutions relevant? You should ask yourself this question before you get entangled into some sort of bulimia for betterment that may harm your private life, in the end. You expect too much from the situation. It is advisable that you choose a long-term perspective, forget attractive but illusory solutions and only keep the essentials: a genuine improvement based on a lifestyle in harmony with your rhythms and your heart of hearts. It is this clear-sightedness that will allow you to thwart the traps of this planetary configuration: casualness, sacrifice of major values for the sake of transient quietness and uncertain opportunities.

# Your Solar Revolution

## ★★★★★ Conjunction ♀ Mercury ☉ Sun, orb 10°24'

The good connection between the Sun and Mercury indicates that throughout the year, communication and intellectual or cultural pursuits are given the seat of honour. You put to good use your witty mind and your oratory skills in order to convince the members of your entourage and enrich your knowledge. Your commercial endeavours are favoured.

## ★★★★★ Trine ♂ Mars ♀ Venus, orb 8°12'

You successfully mobilize all your affective and instinctive resources and you let your sensitivity guide your decisions and your actions. Moods prevail over reason. During this period, you should take advantage of the exaltation of your vital forces. You feel the desire to intensely experience each instant and to give your awakened feelings free rein. You may be tempted by passionate love or any other adventure that includes a fair share of thrills. You give your affectivity a new impetus, you express your passions with force and fieriness and you can tell whom you really love. You may experience an encounter that changes the nature of your love life and contrasts sharply with your habits. It may also be an opportunity to reveal your essential desires and to overcome some limitations. More than ever, you display an amazing sincerity and you do not seek anything but a life in harmony with your affective aspirations.

## Conclusion

It is important and even crucial that you get a good grasp of your natal chart if you want to fully appreciate the forecast of the current year. This principle applies particularly when computer programmes are used, as it is the case of this Report. Indeed, the aspects assessed are more powerful and meaningful if they are also found in the natal chart.

Besides, as stated in the introduction, we prefer to give priority to the yearly forecast, which is based on the transit technique, and we consider the forecast based on the Solar Revolution chart as a complement and not as a whole Report by itself. With the combination of both methods, it is possible to further fine-tune the diagnosis. In case there are contradictory elements between the two Reports, the priority should be given to the yearly forecast based on the transit technique.

It is always fruitful to re-read your forecast with the above pieces of advice in mind. Astrology discloses a wealth of secrets to those who are capable of observation, and it is very worthwhile. Never forget that we describe only climates, tendencies and probabilities, not fatality, and that there is much room available for initiatives and free will. Experience has demonstrated that the best of all planetary climates does not necessarily bring about positive concrete events if you demonstrate no willpower, and if you take no actions in order to achieve a satisfactory outcome. Conversely, the potential dangers forecasted can be alleviated or eliminated, on condition that you remain serene, stand back, understand how some ordeals may be beneficial, would it be spiritually only. Asking yourself relevant questions about the real meanings of life is the invaluable key to understanding them...
