Solar Revolution 2019/2020 for Scarlett

Introduction

This 2019/2020 Solar Revolution is valid from one birthday date to the next, from 22 November 2019 au 21 November 2020 for you. It has been computed for your presence in Los Angeles (Los Angeles), California, on 22 November 2019 à 15h48, (the exact moment of the Solar Revolution does not necessarily match your legal birthday date).

It is indispensable to take into account the natal aspects which are repeated in the Solar Return chart. Should it be otherwise, the Solar Return (SR) affects the inner plane and is not very likely to bring about tangible events. The effect of a SR is to "wake up" or activate the potential inscribed in the natal chart. Nothing, or very little, can occur which is not rooted in the symbolism of the natal chart.

As a secondary comment, we believe that it is necessary to be careful not to give too much credit to the principle and the meaning of the planetary dominants found in the SR chart. Indeed, since each author has his/her own method, there may be differences among rating systems used and thus, ranking of planetary dominants may vary. As a result, the interpretation may be slightly distorted.

The SR chart describes the astrological climate of the year starting on your birthday, with its assets and weaknesses. More than a predictive method, it is a comprehension tool which sheds light on the evolution of your personality. It enables you to seize opportunities to blossom, and it helps to avoid traps. It is necessary that you adjust your life context to the situations explained in this Report. Indeed, everyone can take charge of one's life in order to change the nature of an event, grab dormant opportunities, or overcome hurdles. After completing the analysis of your planetary dominants and the assessment of your SR Ascendant (these components give information on psychological trends prevailing throughout the year), we compare your natal and SR charts in order to identify the type of climate in which your life is most likely to unfold during this specific timeframe. Lastly, we review your planetary aspects in order to pinpoint possible opportunities and dangers.

Introduction

Please, also bear in mind that forecasting is first and foremost done using the transit technique, and that this Solar Return Report must be considered as its complement. Indeed, SR forecasts may be less reliable than transit forecasts, and therefore, the former should be taken with a few reservations, although it has numerous proponents, and it is definitely a valuable technique. For all its passionate partisans, the SR Report constitutes a fully fledged forecast. Nonetheless, we recommend that you read it in addition to your yearly forecast, established on the basis of your transits, and that you consider it as the main Report.

Your Solar Revolution

Your Solar Revolution 2019/2020

Saturn is one of the planetary dominants of your Solar Revolution chart

You go through a period of self-questionings. You are lucid and you see reality as it actually is. You lose a few illusions, and you refuse compromises and situations built on wrong bases. You must go to the essentials, relinquish mirages, and courageously consider the necessity to organize your life setting. Thus, although this is a year of rigour, it can prove constructive on many accounts. You are better prepared to face crises than you usually are. You know how to draw the lessons from the past and to realistically look at facts, without naivety or pretence. You are more clear-sighted and pragmatic than you are idealistic, and you do not let illusions damage the authenticity of your life's components. Although some people may criticise you for disrupting the foundations of your life, they can but praise the genuine honesty which forbids you to tolerate approximation, hypocrisy, and easy solutions. A return to the roots, and most probably, a salutary one...

Mercury is one of the planetary dominants of your Solar Revolution chart

Communication and open-mindedness are your forte this year. You establish new contacts, and you increase the number of your activities and undertakings without hesitating to involve your entourage. You want to communicate and to spark up encounters and discussions. This is a very constructive behaviour, particularly if your profession is based on relationships. Human contacts take a special dimension here: both commercial transactions and personal matters lead you to discover new perspectives, to broaden the scope of your centres of interest and your methods of interpersonal approach. Several encounters may prove decisive in the social area more than on the affective plane. Do not dread to launch trial balloons, or to face unknown situations. Indeed, the experiments you make "just to see", or for fun, have every chance to result in opening new and fruitful paths.

Your Natal And Solar Revolution Chart

Houses indicate in which areas each planet expresses its function. The natal houses where the SR Ascendant and SR Midheaven are posited are of utmost importance and indicate the sectors on which you focus your activities. The values symbolised by the tenanted houses are the best assets you should rely on in order to harmoniously experience the energies of your SR chart.

Your Solar Revolution

The Solar Revolution Ascendant in House VI

Your professional life, as well as the totality of your daily responsibilities, need to be reorganised. You must take into account constraints imposed by your life setting, and you need to adjust to new working conditions. You put everything in order and strive to better control your social and professional spheres. Before seizing hypothetical opportunities, you must be in control of the situation and counter any mistake caused by factual mismanagement. It is the time to take stock, since yesterday dreams give way to a more rigorous life. You must analyse and sort out your life with deep clear-sightedness. You must also solve problems one after the other and organise your activities in a rational way. You become more sensitive to hygiene matters, and you pay increased attention to the balance of your psychological or physical health. The main issue is your capacity to put your life back on the right track. The consistency you demonstrate is an asset for your growth, although it sometimes means that you must relinquish values that are outdated now. A return to the sources, somehow.

The Solar Revolution Midheaven in House II

The main focus of this year is on possessions, financial resources, and your personal scale of values. This year is auspicious for transactions and benefits of all kinds. You harvest the fruits of a project you have carried off successfully. Whether you deal with a moral or a financial investment, you place your capital advisedly, and it is certainly the time for large-scale achievements. To that end, you display a realistic frame of mind, you are capable of seizing opportunities in a timely manner, and you take advantage of all the possibilities offered to you. You must pay special attention to the management of both your material and spiritual assets, and review the way you run your personal undertakings. How am I going to benefit from my previous acquisitions? This is the type of questions you should ask yourself. Indeed, what is at stake this year is financial gain, or the fulfilment of your aspirations. Some financial transactions are favoured, of course provided that you can afford them! In any case, this year lends itself to the increase of your fortune, whether of a material or spiritual nature. In other words, it is the right time to develop all the values that are the most obvious or... essential to your eyes.

The Solar Revolution Ascendant

The SR Ascendant often differs from your natal Ascendant. The SR Ascendant is the sign rising on the horizon at the very moment of your astrological birthday (when the Sun is posited at the exact point of the Zodiac he occupied at the moment of your birth). Your personality takes on the characteristics of the rising sign for the whole year. The SR Ascendant describes the nuances of

the human character in perpetual evolution.

Your Solar Revolution Ascendant: Taurus

The Ascendant of your SR chart, not to be mistaken for your natal Ascendant, is posited in Taurus. You spend your goods and your energy wittingly. You are realistic, and you distrust sudden changes, revolutions, and love at first sight. This year, you reconnect with your roots and your most stable bases. It is very likely that you exercise a great deal of prudence and reflection before granting your friendship. You take the time to live and to fully enjoy your gains. The only fly in the ointment may be an excessive reserve and a vigilance which slow down certain growth processes and the natural succession of facts. Therefore, you must put your conservative mindset into perspective and embrace the current changes without systematically closing your mind to the unknown and to uncertain alternatives. The constant feature of this year is a healthy stability which enables you to resist the spirit of the times and to adhere to long-term dynamics without being lured by attractive easy solutions that prove inefficient in the long run. A certain amount of wisdom...

The Aspects of the Solar Revolution

The aspects of your SR chart describe the relationships among planets. They may be harmonious (trines, sextiles), tense (squares, oppositions) or ambivalent (conjunctions). They give information on opportunities to seize, or possible hurdles to overcome. They imply no inexorable sense of fatality whatsoever, since free will can significantly change the course of events. The strength of each aspect is indicated by stars, from * (mild) to ***** (potent, very meaningful configuration).

★★★★★ Conjunction ♃ Jupiter ♀ Venus, orb 1°36'

This planetary configuration is well thought of. It suggests a fruitful stage in romance that is favourable to some sort of legalization (such as getting married) or to perfect bliss. However, this interpretation must be relativized: of course, your forte lies in your seductive abilities and your capacity to adjust your desires to the constraints of the moment. Although feelings are wild, you don't lose the sense of realities. Therefore, more than usual, you arouse a sympathy for which you are willing to compromise. In most cases, you discover in yourself a new interest for socializing. You may seek easy contacts, sometimes in superficial ways. Love has got a price and you are ready to pay. The danger may be that you accept several concessions that turn out to be impossible to bear in the long run. The euphoria of the moment must be carefully balanced. Finally, this period is excellent for expressing (Jupiter is

Your Solar Revolution

the planet of language) your feelings (Venus) and translating your heart's reasons into actions.

★★★★★ Opposition ♃ Uranus ♂ Mars, orb 1°11'

This period is placed under the sign of unnecessary risks. Your judgments are adamant and final. You are willing to follow your ideas through without taking obstacles into account. You expose yourself to reversals of fortune because your strong impulsiveness leads you to neglect important topics. Thunderbolts may turn against you. It is certain that your fighting spirit can accomplish miracles. But you should not be so reckless. The climate becomes explosive at times! Actually, events speed up. The danger is that you may take extremist stands, thus worsening existing tensions. Hard-line policy leads to a dead end, more often than not. You must shrewdly handle divergences, otherwise skids will undoubtedly crop up! However, this planetary configuration may be positive if your life has been stagnating for the past few months and no solution was in sight. The final settlement of a conflict sometimes goes through a few telescoping. If misunderstandings have amassed, this period is excellent for clearing the air. It is likely that latent quarrels, and conflicts that have remained in the dark for too long, break out in broad daylight. It is up to you to avoid aggressive outpourings and to retain only the best of this configuration: clarification of misunderstandings and efficient actions that break deadlocks.

★★★★★ Trine ♆ Neptune ♀ Mercury, orb 3°55'

Sweet illusions may come true. Words work their magic: it is the time for unexpected encounters and godsend. Discussions turn to your advantage. The period is very favourable for confidential talks and behind the scenes bargaining. Take advantage of your improvisation skills, and your intuitions will give you the keys to a fruitful dialogue. Do not try to influence events or to speed up their development. It is better to let your antennae and your intuition be your guides. In any case, you are moving towards unknown territories and you try to explore still virgin paths. You don't do that out of curiosity but because "you must", because you feel that a new dialogue is necessary. It is likely that a new relationship will open the door to unsuspected prospects. The only danger may be that you lack a critical mind and blindly take the easy way out that is peddled to you.

★★★★★ Square ♄ Saturn ☾ Moon, orb 5°27'

You are going through a complex period, loaded with doubts and self-questionings. Your intimate realm does not seem as consistent as it was. You may need to reconsider the bases of your private life and to discard compromises and shams. A rough time that could be painfully experienced. What you took for granted yesterday seems so heavy to bear now. You are

Your Solar Revolution

doubtful of all the things you used to do out of habit. Your daily pace and your personal or family life may be shattered. It is important to understand correctly the stakes of such a period. It is true that circumstances are less promising than they used to be. However, you are invited to re-organize your life and to break habits with a view to building a daily reality that lives up to your deeper aspirations. In order to make the most of this planetary configuration, it is necessary to relinquish your comfort to some extent and to strike a new, more essential balance. You must also accept with lucidity to pay the price for a peace of mind that is yet to come. Even though it means, sometimes, to sacrifice a few reassuring elements on which your stability and habits were based.

★★★★★ Sextile ♃ Jupiter ♂ Mars, orb 4°33'

It is the right time to take action and to demonstrate your efficiency. You successfully settle the scores without offending your entourage and you reconcile strong fighting spirit with diplomacy. You jump at opportunities as they arise and your actions are perfectly timed. You mobilize your energy advisedly, which increases your chances of success. However, euphoria may lead you to forget boundaries. Beware of inordinate programmes and disproportionate large-scale enterprises! Avoid appealing projects that don't match your expertise. All opportunities are not necessarily suitable. Nonetheless, the climate is constructive and after challenges, the time for opportunities has come, and solutions start to emerge. As you adjust your actions to the current realities, you become aware of new prospects, you take no chances and as a result, you achieve your objectives. Whatever the upcoming pitfalls might be, the first step is often the decisive one.

★★★★★ Opposition ♅ Uranus ♀ Mercury, orb 8°24'

This hard Uranus-Mercury aspect inclines to radical attitudes and lightning explanations. Compromises give way to shattering solutions and debates are hot. This climate allows you to sweep aside the ambiguities that undermine your life. The situation seems unequivocal, especially regarding your relationships. However, beware of the rough stuff! Words may overstep the limits of what is generally accepted as decent. Although some experiences are worthy, you must be prepared to cope with the consequences of your extremist attitudes. Some situations exclude immoderate language, although all the things that are said needed to be said. You may stand up for some extravagant, even a bit revolutionary idea. Your frame of mind inclines to all eccentricities, especially the most gratuitous ones. Your mind is more critical and curt and you may want to implement a hopeless or hare-brained project to the bitter end. It doesn't matter! Nothing seems to shake your convictions. Nothing, except perhaps the verdict of facts. Brilliant constructions are likely to turn into a house of cards. At least, you will be given the opportunity to put forward your most personal ideas.

Your Solar Revolution

★★★★★ Sextile ♄ Saturn ♀ Mercury, orb 5°12'

You display great clear-sightedness and you retain your objectivity in many circumstances. Your attitudes are marked by rigour. You strive to understand the whys and the hows of all events and you explore the backstage of your life setting. Superficial rapports don't interest you any more. You must now deepen your judgments, examine the hidden machinery of your life and understand your close friends' real motivations. This period is very good for all types of tests and clarifications. More than ever, you need to tell the truth and do your utmost in order to clear up your relationships. You are realistic and you don't hesitate to dispel ambiguities, which open the way to healthy and enduring human relationships. This period also favours new experiences such as discovering the unknown and increasing the number of enriching encounters. Even if sometimes it means questioning yourself with an open mind and welcoming concepts that yesterday were still unfamiliar to you.

★★★★★ Conjunction ♂ Mars ♀ Mercury, orb 9°35'

You demonstrate an alert mind and a strong will. You take your decisions promptly and you implement them straight away. Your great mobility endows you with a formidable efficiency. Dialogues are lively and words, brilliant. It is hard to counter your arguments. During this period, you adjust amazingly well to complex surroundings and you know how to quickly impose your ideas. Straightforward explanations may break a deadlock. In the relationship department, the pace speeds up with an encounter leading to new prospects or a contact that proves helpful, here and now. It may also be the beginning of a dialogue or some initiative that requires a follow-up. In all cases, it seems interesting to pay special attention to any new relationship, although and particularly if you don't fully realize its importance yet. In the short or longer-term, contacts established during this period will yield nice fruits. Of course, it is up to you to make the first steps...

★★★★★ Trine ♃ Uranus ♀ Venus, orb 7°21'

This planetary configuration often indicates a turning point in your romantic life. It is striking because your affectivity's dormant demands and unavoidable requirements shoot up all of a sudden. It is also outstanding because events may change the nature of your life and the quiet course of your heart. There is a vivid desire for personal assertion, freedom and autonomy. Therefore, this period is likely to give your love life an unexpected twist. It may be an encounter that awakens your aspirations or just a new impetus given to your couple's relationship, eventually freed from its fetters. Indeed, a decisive point where love reaches its maturity. You gain awareness of your real motivations. There are no more questions or doubts, there are only answers and assertions clearly put forward. Events are likely to transform the way you love, and to provide you with more freedom, liveliness and passion. For some people, it is the time for love at first sight and for revelations. For

Your Solar Revolution

others, it is the time for freedom, whether it is taken or given. The freedom to be oneself in spite of the constraints of living together.

Conclusion

It is important and even crucial that you get a good grasp of your natal chart if you want to fully appreciate the forecast of the current year. This principle applies particularly when computer programmes are used, as it is the case of this Report. Indeed, the aspects assessed are more powerful and meaningful if they are also found in the natal chart.

Besides, as stated in the introduction, we prefer to give priority to the yearly forecast, which is based on the transit technique, and we consider the forecast based on the Solar Revolution chart as a complement and not as a whole Report by itself. With the combination of both methods, it is possible to further fine-tune the diagnosis. In case there are contradictory elements between the two Reports, the priority should be given to the yearly forecast based on the transit technique.

It is always fruitful to re-read your forecast with the above pieces of advice in mind. Astrology discloses a wealth of secrets to those who are capable of observation, and it is very worthwhile. Never forget that we describe only climates, tendencies and probabilities, not fatality, and that there is much room available for initiatives and free will. Experience has demonstrated that the best of all planetary climates does not necessarily bring about positive concrete events if you demonstrate no willpower, and if you take no actions in order to achieve a satisfactory outcome. Conversely, the potential dangers forecasted can be alleviated or eliminated, on condition that you remain serene, stand back, understand how some ordeals may be beneficial, would it be spiritually only. Asking yourself relevant questions about the real meanings of life is the invaluable key to understanding them...
