Compatibility Report Victoria and David

Introduction: Relationship Analysis

This report integrates all the astrological parameters used by professional astrologers in their comparative studies of a couple's charts, also known as synastry, and uses a comprehensive methodology based on compatibility calculation: we compute the outcome of all the possible combinations existing between two charts and we establish a conjugal index, an affective index, a physical index for the couple's compatibility, and a communication index.

The programme takes eleven major and minor aspects into account, weighing with accuracy formulas for each aspect and rulership. It also analyzes fifteen astrological items (planets and angles, Chiron, Lilith and the Lunar Nodes axis). All the above factors are used for the study of couples and the assessment of our four compatibility ratings or indexes:

The conjugal index

describes the essence of the relationship in view of a marital relationship. It explains the basis and the structure of the link. It is the most important element among the four series of information that are provided here.

The affective index

describes the strength of the sentimental components; it is one of the elements of the relationship structure.

The physical index

gives an idea of the sexual attraction. It indicates only a tendency and you must bear in mind that this very subtle kind of forces may not always express themselves in a constantly equal way, but that they may vary significantly according to other modes of exchange.

The communication index

describes the easy flow of your exchanges, regardless of any affective and physical context. It provides additional and interesting information and may be a binding and amplifying agent among other modes of exchange.

Introduction

These four indexes or ratings are given a grade between 0% and 100%.

What is the concrete meaning of these ratings? They indicate the smoothness of exchanges between two persons and not the quality of their love. Indeed, both partners retain their own choices, their relationship problems or their peculiarities: therefore, it is possible to get ratings nearing 100% although the relationship does not have a positive outcome. Please, never forget a few obvious rules and facts such as in the following examples:

- everyone has one's own character and, for instance, if someone has a predisposition for a belated marriage, an encounter at the age of 18 with a compatible person does not necessarily result into a marriage or a relationship, even if the rating is very high.
- each life goes through very different periods. We may not be available for amorous relationships because we are already involved in a couple or because our state of mind is not conducive enough etc. Therefore, meetings with persons with whom ratings are very high do not necessarily result into a relationship.
- some couples may have quite low ratings; this does not mean unhappiness or problems in the relationship. A conjugal rating of 35% or 40% is absolutely not incompatible with a life-long relationship. The ratings cannot really give information on the intensity of your relationship, which defies these types of criteria. We underline again that we are dealing here with smoothness and not with quality and that two persons with an index of 30% or even 10%, will not experience an "inferior" quality of love, compared to a couple with an index of 80%: the difference probably comes from the fact that they will need to put a lot of energy and efforts in the relationship in order to enhance it and to make it last.

Please, do bear in mind that these figures represent a tendency and not a final verdict, because of all the factors we have just explained.

This report describes in detail the characteristics of your couple's relationship, sorted out in order of importance. They are arranged in two chapters, the first one deals with the relationship from an amorous perspective only, while the second chapter deals with its human aspect, not specifically amorous, which is the communication plane; of course, both parts are linked to each other since the relationship forms a whole. Read them once again, you will most probably be amazed and you will see for yourself how accurate they are. However, please bear in mind that a human relationship is complex and may contain contradictions, which our report cannot highlight, for obvious reasons: indeed, the synthesis of the compatibility indexes with their texts is the only tool that allows to understand properly your couple's relationship.

Introduction

Your four compatibility indexes are provided with a comment regarding their values.

Love Characteristics

Your Strong Points

★★★★★ Conciliation aspect ♀ Venus ♂ Mars, Strength: 79.8

This is the best possible sign of physical compatibility between two persons and it had to be yours! Both of you have the luck of the devil because you can freely express all your desires and experience them together without restraint, with harmony and voluptuous pleasure. It is not exaggerated to say that the contact between you is magnetic, even electric: you are highly sensitive to the physical presence of your partner and both of you equally appreciate the other one, a little bit in the way children appreciate chocolate! In your couple, David is more active and dynamic, but it does not prevent Victoria from launching charm offensives and being very successful at it. Sometimes, the relationship is not an amorous one but both of you tremendously enjoy being together.

This aspect is found in both partner's charts. Therefore, the description of the above paragraph constitutes one of the major features of your exchanges.

★★★★★ Conciliation aspect ♀ Venus ☉ Sun, Strength: 58.7

Affective compatibility and harmony prevail within your couple. Both of you are happy to be available for the other one. David encourages Victoria to give of her best while respecting her sensitivity, her emotions and her aesthetical sense, and Victoria strives to make life easier and more pleasant for him. This mutual understanding is an agent for fulfilment and satisfaction for your couple. Therefore, you find it very natural to get together as often as possible and to share your numerous common centres of interest.

Your Relationship

★★★★★ Conciliation aspect ☾ Moon ♂ Uranus, Strength: 41.4

There is a strong stimulation between you and a nice magnetic attraction boosts your exchanges. Victoria is sensitive to David's originality and dynamism while David easily feels Victoria's charm and seductive powers. The relationship is bent towards an exoticism and a mutual amazement that may threaten your couple stability. But this tendency is not really serious because it can be offset by other factors. Often, amazement and discoveries are your couple's nourishments and... they are invaluable so, enjoy without moderation! Besides, it is very likely that you met under very unusual circumstances.

★★★★★ Conciliation aspect ♀ Venus ♄ Saturn, Strength: 31.3

There is a wonderful sign of quality and durability in your relationship. You have every chance to avoid sudden and unfair splits because your mutual feelings are altogether calm, tender and responsible. Victoria can certainly rely on David in spite of the latter's natural reserve, and David can stabilize any affective overflow... both ways. Therefore, trust is prevailing and you can rely on each other on a long-term basis. David's sense of responsibilities looks out for squalls, his honesty, his integrity and his sense of duty are such that it is very likely that you will go a long way together and for a long time.

This aspect is found in both partner's charts. Therefore, the description of the above paragraph constitutes one of the major features of your exchanges.

★★★★★ Conciliation aspect ♃ ASAS ♂ Mars, Strength: 26.6

What a beautiful dynamic relationship! Sound emulation immediately happens between you and prompts you to move ahead at a frantic pace. Victoria keeps David's interests on the alert, plays an instrumental role in David's choices and encourages him to take action in a direct and personal way. This configuration also indicates a strong physical attraction, with both of you perfectly responding to the partner's needs.

This aspect is found in both partner's charts. Therefore, the description of the above paragraph constitutes one of the major features of your exchanges.

★★★★★ Conciliation aspect ♀ Mercury ♀ Venus, Strength: 23.1

Gentleness and affection on the one hand, and easy communication on the other hand, your qualities are in a state of permanent receptivity and bring about a most pleasant comprehension. Victoria enjoys continuously talking, explaining and expressing her ideas, while David encourages her through a warm attitude, which provides her with the necessary confidence and stimulation. In this way, David can inspire Victoria's literary or intellectual creativity and, why not, he can help her disseminate her ideas and contribute to her success in this regard. Victoria will always find in David the affectionate support she needs in her difficult moments or when her creativity lacks inspiration.

Your Relationship

The texts following this sub-chapter describe characteristics having a lesser importance in your relationship: we strongly recommend that you go through them later, for instance when you have the time read it again with deep attention.

★★★★★ Conciliation aspect ♃ Uranus ♀ Venus, Strength: 17.2

A constant and mutual excitement gives an exquisite touch to your exchanges and brings about renewed stimulation, delights and exaltation. Surprises add spice to your relationship, ensuring that you never get bored, and energize your sex life if you are a couple. David immensely appreciates Victoria's originality and sexiness, while Victoria, particularly sensitive to David's charm, does not hesitate to overdo with extravagance and with the certainty that his admiration is aroused. Undoubtedly, with such disconcerting and intense experiences, you need more, again and again. Durability is not your priority: for both of you, the most important thing is to live your physical and affective fascination in the moment and you both manage to do so, wonderfully well.

★★★★★ Conciliation aspect ♇ Pluto ☉ Sun, Strength: 14.3

There is an obvious and mutual need for deep transformation between you. If each of you is open to important self-questionings, your relationship promises to be intense: an almost innate understanding, as well as emotional and sexual compatibility are likely to settle in. David is under the spell and wants to help Victoria to gain confidence in her own capacity for self-expression, while in return, Victoria tremendously admires his determination and his radiance and encourages its revival in order to start anew. Victoria plays a sort of catalyst role for a remarkable evolution of your couple and she deeply influences the future of your relationship.

Your Weak Points

★★★★★ Tension aspect ☉ Sun ☾ Moon, Strength: 47.0

Obviously, there is an instinctive attraction between you but, quite rapidly, an unexplainable lack of understanding may occur, leaving Victoria thirsting for warmth and affection and David, sorry for not completely sharing Victoria's aims and ideals. This is not very important but, in the long run, feelings of frustration emerge on both sides, with Victoria a bit lonely on her path towards her ambitions, and David unable to adjust his sensitivity or to fully express his love. Your couple is not doomed to failure, however, reciprocal flexibility is needed.

★★★★★ Tension aspect ♀ Venus ♃ Neptune, Strength: 35.3

You have difficulties in connecting to each other on the affective plane, although both of you are willing to do so. It seems that you are both overwhelmed by doubts regarding the genuineness of your love surges. You

Your Relationship

are also doubtful of your partner and often, when you express your affection or your tenderness, you feel that you are missing the point and that you don't reach your partner's soul intensely enough. David strives to show more clarity and precision regarding his intents, in order to dispel vagueness. Besides, everything plays out in a confused, almost indefinable way, but without violence, and more importantly, without harming the duration of your relationship.

★★★★★ Tension aspect ♄ Saturn ☾ Moon, Strength: 21.6

This is a serious warning for caution. It is likely that in the course of time, sometimes quite rapidly, communication gets bogged down. David may be frustrated by Victoria's lack of warmth and in return, Victoria may be irritated by David's lack of seriousness. The danger is present, clear and tangible and both of you must put in a lot of effort in order to adjust to each other. David often feels that Victoria's judgement is harsh, that she is too disciplined, too tidy and too selfish, while Victoria deplores David's thoughtlessness and triviality. If you really love each other, with time, you can overcome your differences but you must not allow time to wear out the excitement of the first moments. The ball is in your court...

The texts following this sub-chapter describe characteristics having a lesser importance in your relationship: we strongly recommend that you go through them later, for instance when you have the time read it again with deep attention.

★★★★★ Tension aspect ♅ Uranus ☾ Moon, Strength: 15.7

The tension between you is high and it can endanger the duration of your life together. Victoria may display a powerful intellectuality and eccentricity and she may not express her emotions enough, while David may painfully resent this type of behaviour. The relationship is often electrical, which is beneficial, if there are other strong affective soothing elements. In that case, both of you are able to adjust to David's fascination and Victoria's unpredictability, without too many difficulties. In any case, remain watchful and do not allow anything to open a breach in the solidity of your exchanges. Otherwise, you may brutally be separated although your relationship does not deserve it.

Your Relationship

Communication Characteristics

Your Strong Points

★★★★★ Conciliation aspect ♀ Mercury ♃ Jupiter, Strength: 50.1

Intellectual and professional cooperation has every chance to be efficient and warm. Victoria's nimble, nervous and quick side perfectly matches David's experience, charisma and wisdom, at least, this is the way both of you feel it. Whether as professional partners, or as a couple, it is certain that your relationship flows smoothly and that it enriches both of you. David's tolerance and benevolence go along well with Victoria's mental skills and creativity. You can share a great number of centres of interest and your association is a very beneficial one.

★★★★★ Conciliation aspect MCMC ☉ Sun, Strength: 38.5

David can play an important role in Victoria's destiny, in the amorous or conjugal life, in the career area or in the field of spiritual and philosophical concepts. Victoria tends to idealize David, or at least, to happily follow his example and his advice. There is an excellent sign in favour of a professional activity or a life together because, owing to the real harmony prevailing between you, Victoria accepts David's natural authority and experience. David appreciates Victoria's attitude without reservation, as well as the support and the improved status Victoria provides.

★★★★★ Conciliation aspect ASAS ♄ Saturn, Strength: 34.9

You feel that each of you can be of benefit to the other one and that you can build a steady and enduring relationship even if it requires some time because it is difficult for both of you to grant your confidence and to open up straight away. David has a father-like attitude, protective and educative. He secretly wants to resemble Victoria, in whom he finds all the help he needs to develop the qualities he is lacking. Your relationship is deep and reassuring for your couple but it also proves excellent in the professional plane.

★★★★★ Conciliation aspect MCMC ♂ Mars, Strength: 32.6

You stimulate each other and your efficient cooperation is wonderful: David's entire energy and effort blend perfectly well with Victoria's objectives, which fully benefit from this dynamic support. David's actions and demands vis-à-vis Victoria have a major impact on the latter's career or even, her destiny, in concrete and visible ways. In a couple, this nice combination allows you to achieve your goals through your joint efforts. Your personalities are appropriate and complementary and yield results that particularly benefit Victoria's personal interests.

This aspect is found in both partner's charts. Therefore, the description of the above paragraph constitutes one of the major features of your exchanges.

Your Relationship

★★★★★ Conciliation aspect ☉ Sun ♃ Uranus, Strength: 31.9

A magnetic attraction is instantly established between you and gives an exciting and non-conformist bent to your relationship. You stimulate each other in a cheerful and fraternal atmosphere and in this way, you live a continuously dynamic and eventful life. Victoria encourages David to get rid of any possible inhibition in order to fully express his originality and to assert his independence more strongly. David prompts Victoria to be less influenced by people's values, to show more open-mindedness and creativity in order to be at the front of the stage. Both of you know how to positively make use of the "liberating" effect you have on each other. You freely express your ideas and you communicate harmoniously.

★★★★★ Conciliation aspect ASAS ☉ Sun, Strength: 28.6

Mutual sympathy and closeness develop instantly between you. You often have the same reactions, and this fact brings about a feeling of familiarity that may create a very tight bond. Your instinctive trust in the other one facilitates your exchanges and you are mutually encouraged to project your best image and to increase your self-confidence. Each of you find your place within your couple and, without rivalry, you can cooperate with a view to achieve a common task.

This aspect is found in both partner's charts. Therefore, the description of the above paragraph constitutes one of the major features of your exchanges.

★★★★★ Conciliation aspect ♀ Mercury ♃ Neptune, Strength: 23.3

You manage to make your meaning come through in a very original manner: with her ideas and her words, Victoria easily makes David dream and she exacerbates his sensitivity and his imagination. Regardless of Victoria's logic or the intrinsic qualities of her reasoning, David is mainly sensitive to its artistic, imaginary, indeed even mystical or poetic aspects. This endows your relationship with an unusual bent. Victoria's will to communicate will be greatly stimulated by David's lyrical flights or his mysterious and quite elusive refinement. Therefore, the original keys to your mutual understanding and appreciation are made available to both of you.

★★★★★ Conciliation aspect ♂ Mars ♃ Uranus, Strength: 22.4

Your exchanges are more than electric and, whether you like it or not, they are stimulating and make you move on! High tension prevails, multiplying the number of your joint activities and boosting your respective behaviour. Victoria's energy overflows, while at her contact, David keeps on releasing his originality and his inventive genius. Obviously, none of you can stay still. If you are a couple, you probably feel an... electric physical attraction and you think that you are meant for each other. Your daily life is full of surprises and changes and, although you are very fond of movement, above all, you appreciate staying together.

Your Relationship

★★★★★ Conciliation aspect ♀ Mercury ♃ Pluto, Strength: 21.3

There is a mysterious link between you. David can penetrate Victoria's subconscious and understand her real thoughts and motivations. This type of inquisition may trouble Victoria but the alchemy of your relationship works very well. Victoria is intellectually mesmerized by David's profundity and might. In return, David is sensitive to Victoria's mental alertness and unusual conceptions. Your association may be very fruitful for your intellectual creations. Very often, at David's contact, Victoria gains some kind of beneficial transformation or, at least, an enriching evolution.

The texts following this sub-chapter describe characteristics having a lesser importance in your relationship: we strongly recommend that you go through them later, for instance when you have the time read it again with deep attention.

★★★★★ Conciliation aspect ♃ Jupiter ☉ Sun, Strength: 19.7

In your relationship, both partners encourage the other one to improve one's situation: Victoria stimulates David's confidence and provides him with support and protection, while David, lost in admiration, helps her appear in a flattering light and blossom. You share the same vision of life and the same need for truth. Therefore, you enjoy very much being together, exchanging ideas and concepts on philosophical, cultural or religious topics. Under these stabilizing, even conformist influences, you are likely to legalize your amorous relationship, which will always be based on respect and comprehension.

★★★★★ Conciliation aspect ♃ Jupiter ♂ Mars, Strength: 17.8

It is very likely that cooperation between you is fruitful: Victoria brings in her experience, her generosity and her sound judgement, while David brings in his efficiency, his capacity of action and his precise know-how. This configuration is very promising for the success of your common projects that require broad vision and concrete action at the same time. In a couple's life, this characteristic makes your home a very eventful place and not a haven of peace, for your mutual benefits.

Your Weak Points

★★★★★ Tension aspect ☾ Moon ASAS, Strength: 77.6

You do not really share the same approach to cooperation in a couple and both of you may have difficulties in understanding the other one's reactions. David, who wishes that Victoria were less sedentary, may be irritated by her excessive attachment to life principles and habits, whereas Victoria disapproves of David's impulsive way of expressing himself. Therefore, conflicts may crop up about domestic problems or about the children's education.

Your Relationship

★★★★★ Tension aspect ☾ Moon ♿ Mercury, Strength: 76.1

Having a bit on the side, without real consequence, may spoil the communication between you: in many instances, Victoria may painfully resent David's criticisms as he always finds the right words that hurt her. David is not very sensitive to her moody reactions, therefore, Victoria cannot share her emotions on the moment. There may be a danger if David insists too heavily on getting explanations because such behaviour will not calm things down. The solution for both of you is to simply let go and try to discuss a different topic.

★★★★★ Tension aspect ☼ Sun MCMC, Strength: 54.8

In business, David does not spontaneously agree with Victoria's will. A period of understanding is necessary for both of you to become able to efficiently reach your common goals. Victoria may display a facet of her personality that is tough or lofty, which may provoke incomprehension and blocks and hinder your cooperation. David must do his utmost in order to earn Victoria's confidence. In return, Victoria must water down her wine so as to avoid misunderstandings and obstacles that slow down the achievement of your common objectives.

The texts following this sub-chapter describe characteristics having a lesser importance in your relationship: we strongly recommend that you go through them later, for instance when you have the time read it again with deep attention.

★★★★★ Tension aspect MCMC ♆ Neptune, Strength: 15.9

David does not clearly understand Victoria's objectives and, as a consequence, he may influence Victoria, turn her away from her goals and jeopardize them. This lack of understanding brings about a lot of confusion and prevents your professional cooperation from being fully efficient, particularly from Victoria's viewpoint.

★★★★★ Tension aspect ♃ Uranus MCMC, Strength: 14.9

Your exchanges are full of jolts. Now ahead, now backwards. David finds it hard to follow Victoria's excessive originality that may appear as a lack of consistency. Based on facts, David sees the upsetting consequences of Victoria's eccentric behaviour on your respective interests. In the worst cases, there is a real danger that you may break up as suddenly as you met...

Potential Mutual Influences

When we compare two astrological themes, in addition to the blatant and

Your Relationship

directly active relations that were delineated above, there is a number of potentialities which describe secondary mutual influences playing out in different life areas: they are not visible at once, as their effect is not direct, but they shed complementary light which fine-tunes certain attitudes between two persons. Indeed, in the long run, these different energies play out in a more noticeable way and will contribute to the relationship's richness and complexity. We analyze them here in ten short chapters addressing each of the ten types of energy involved. Please, keep in mind that they will not be understood and felt until the relationship has matured.

Your Mutual Encouragements

Although this aspect of your relationship is sensitive and potentially tricky, if Victoria takes on the role of confidant, and sometimes of sage, she can help David's spiritual evolution and get him to accept the unacceptable. Your exchanges may be unbalanced, with David learning and improving his weaknesses at Victoria's contact. Be careful that David's vulnerability is not challenged when difficult circumstances occur.

Friendly ties and mutual aid are prevailing between you: David naturally plays the role of advisor and allows Victoria to move more efficiently towards her own goals and ideals. It is very likely that you have many centres of interests in common and that dialogue flows smoothly and pleasantly between you.

Your Mutual Influence When Facing External Events

Your relations seem natural and obvious. You both feel in confidence and you give free rein to your emotions in a warm and relaxed way, without having to worry about what the other one thinks. David has his head full of projects and he widens your couple's scope of vision, through meetings with new friends for instance, while Victoria welcomes them in a convivial and fanciful atmosphere. Victoria may also offer her intuition and her imagination, which are beneficial to David's undertakings.

Your relationship's emotional intensity is such that there is always something exciting happening! You often shift from all to nothing. David's emotions and Victoria's ensuing reactions are prone to wide variations. In some cases, money issues interfere between you, in some other cases, David tends to have wrong ideas on Victoria's personality but most often, positive aspects prevail: thanks to David's help, Victoria becomes aware of many new facets of her own character.

Your Mutual Stimulations in the Field of Communication

David's weaknesses and vulnerabilities are perfectly well picked up by Victoria's sound judgement. Victoria will spare no effort in order to avoid their

Your Relationship

consequences and help David. This specificity may be double-edged and Victoria must be aware that there is a real danger that her words or deeds can deeply harm David's personality, which Victoria's eagle-eyes lay bare.

David's intellectual cleverness is a constant asset for the success of Victoria's projects. This efficient and ingenuous support may favour perfect mutual sympathy between you, in addition to the affective link that may have developed already.

Your Reciprocal Abilities for Creating Harmony

The strength of your relationship comes from the subtle harmony between amorous feelings and friendship, which prompts you to share many centres of interest. A warm and positive atmosphere allows both of you to feel free: Victoria brings her artistic touch and her charm, while David's original ideas broaden your social horizon. Both of you encourage each other to instil more creativity and spontaneity into your projects.

It is easy for both of you to pick up each other's mood and feelings and to help each other express them, thanks to the almost telepathic link that exists between you. Each of you can open up freely, without fearing to be judged: David provides the affection and tenderness necessary to your couple's intimacy and artistic sensitivity, while Victoria brings in her compassion and her spiritual aspirations.

Your Mutual Stimulations in the Field of Action

Victoria's desire to conquer may be strongly increased at the contact of David who symbolically becomes the person to be caught and to be possessed. This will to dominate may play out in the financial area instead: in that case, Victoria urges David to take courageous initiatives in order to make more money, or she makes David spend money lavishly. Therefore, there may be disagreements about your couple's possessions and resources, if David does not accept such impulsive and quite intrusive manners.

You stimulate each other and the efficiency of your cooperation is wonderful: David's entire energy and efforts blend perfectly well with Victoria's objectives, which fully benefit from this dynamic support. David's actions and demands vis-à-vis Victoria have a positive impact on Victoria's career, or even her destiny, in a concrete and significant way. In a couple, this nice combination allows you to achieve your goals through your efforts. Your personalities are appropriate and complementary and yield results that particularly benefit Victoria's personal interests. However, your exchanges may be over-stimulating and the only solution for calming things down is that David does not get involved too deeply in Victoria's projects.

Your Relationship

Your Assets, Protections and Abilities for Success

Whether through her social relationships or through her knowledge, Victoria protects David and contributes towards the success of David's projects, sometimes, too generously. The ensuing sympathy and warmth obviously favour the tie already existing between you.

This excellent combination allows Victoria to benefit from David's unconditional support and benevolence, to discover new social circles, or to achieve her human or professional objectives. Therefore, Victoria improves her own social status and will spare no effort in order to favour David's position and self-confidence. This is a sign of strong protection from David to Victoria who, in return, will play an important role in the development of David's abilities to make use of her assets in your joint projects. However, David may overestimate his capacities when you are together.

Lessons Drawn From Experience and Your Responsibilities

Finance is an important area where Victoria plays a particularly active role. She may intervene in order to consolidate David's resources with sound caution or she may strive to limit David's expenses. In all cases, material issues may be tricky. Most often, financial matters are solved thanks to Victoria's common sense and forethought, although sometimes, they are considered with a bit of pessimism.

Both of you feel that you can bring a lot to each other and that it is possible for you to establish a steady and enduring relationship, even though it requires some time because it is difficult for both of you to grant your confidence and to open up straight away. David has a father-like attitude, protective and educative. He secretly wants to resemble Victoria, in whom he finds all the necessary help to develop the qualities he is lacking. Your relationship is deep and reassuring for your couple but it also proves excellent on the professional plane. In some circumstances, however, David's severity and excessive authority may hinder Victoria's freedom of expression and fulfilment.

How You Motivate Each Other and the Impact on Your Uniqueness

Victoria's new and original ideas help David change his domestic and professional life and improve his health in quite unusual ways; or at least, Victoria encourages David to take a few steps towards that aim. Your couple may be interested in the latest technologies or in methods to improve the quality of your joint work, but you may also have a passion for alternative medicines, yoga, tai chi etc...

Your Relationship

A strong and sudden attraction probably threw you into each other's arms. You are living a very enriching relationship which favours your inventive and out of the ordinary activities. David takes on the role of the eccentric teacher who wants to stimulate Victoria's imagination and intuition and encourages her to develop her abilities and to fully exploit her creativity that is ready to be freely expressed.

Idealism, Compassion and Euphoria

At first sight, David perceives Victoria as his ideal complementary half. Victoria's elusive and mysterious personality has an irresistible charm that may prompt David to evolve very positively in his dealings with other people, particularly through a more humane and idealistic vision. This peculiarity is most difficult to integrate into your relationship because it is hard to clearly understand the gist of your exchanges. Besides, David's reputation may depend on Victoria's moods...

Victoria's efficiency and working methods are challenged by David's tendency to wrap things up in appealing but sometimes muddled or confuse ways. Stick to your direction and keep your feet on the ground because Victoria will need pragmatism in your professional exchanges or when you implement concrete projects together: retain all the positive aspects of your partner's idealistic attitude, and all will be fine!

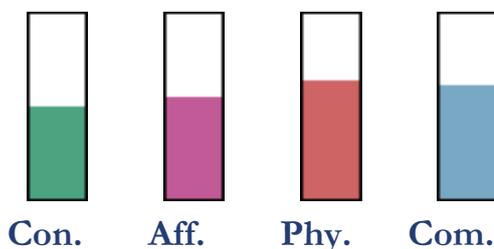

Awareness Gaining and Transformation Factors

Victoria is often a valuable help for the improvement of David's daily life or working methods, for instance if you have the same profession. Victoria's insight and discerning abilities may even contribute to improve David's health, thanks to her sound, original and unusual pieces of advice.

The atmosphere of your relationship may be disrupted by the blend of fascination, attraction and fear that Victoria feels in David's presence. Psychologically speaking, it is undeniable that David holds irresistible sway over Victoria, and as an indirect consequence, there is no problem within your relationship!

Your relationship is a challenge both of you can take up successfully on the condition that you demonstrate willpower, which you certainly will. Periods of calm are followed by more turbulent ones. All you need to do is to put a bit of effort into your relationship in order to adjust to each other, and meet your divergent needs. You can make a wonderful and lasting couple if you are really willing to! The challenge for you is realistic with the condition of having the will and, you'll sure have it. The periods of calm will leave room to more agitated periods, but it is just a matter for you two to accept sometimes to bring a little energy to the relation in order to adapt to each other because you don't have identical needs. You can form a very beautiful and lasting couple if you really want it!

Conclusion

We hope that this Report has shed light on how your relationship works, as well as on the various aspects of your respective personalities.

There is a point that we deem necessary to underline: in our conclusion, we want to insist one last time on the meaning of the compatibility ratings; the marks that quantify your affinities never give an implacable verdict regarding the quality of your couple's relationship.

Here, we are dealing with the more or less smooth way in which you actually experience your relationship, and under no circumstances, are we addressing its beauty or its strength.

For the sceptical ones who do not believe in astrology, we do not resist the pleasure to quote a few comments by persons of authority in this area. They are drawn from the excellent book authored by one of the undisputed French masters, André Barbault, *Traité Pratique d'Astrologie* (Practical Treatise of Astrology), published by the Editions du Seuil:

KEPLER: « Twenty years of practical studies have convinced my rebellious mind of the reality of astrology. »

HENRY MILLER: « Astrology considers man in his wholeness and I believe that it is essential: man is a comprehensive being. Astrology shows that nature has its rhythms and that each human being participates in these rhythms... »

C.G. JUNG: « If people whose education leaves a lot to be desired have thought that they could, until recently, make fun of astrology, considering it as a pseudo-science dead a long time ago, this astrology, dating back to the depths of popular wisdom, comes up again at the door of our universities, which they left three centuries ago. »

SAINT-JEROME: « I remain silent on philosophers, astronomers, astrologers whose science, very useful for men, is asserted through dogma, explained through method, justified through experience... »

ARISTOTLE: « This world is linked in a necessary way to the movements of the superior world. Any power, in our world, is ruled by these movements. »

BALZAC: « Astrology is a huge science that has ruled the most intelligent minds. »

PIERRE SCHAEFFER: « It seems to me that astrology can, in its way, through the configurations studied, detect the most secret relationships of human being's inner life. »

Conclusion

The list of personalities who are in favour of astrology is increasingly long. It is clear that, in the 21st century, astrology is gradually given back the place it used to enjoy, except during the past three centuries: a human discipline that works well, with its questionings, its research and its evolution, but also with the mystery over the reasons of its accuracy.

Regarding interpersonal relationships, the debate is quite similar to that of astrological forecasts. Although fate is not inescapable, it does not allow to dismiss a great number of peculiar behaviours that everyone finds astonishing. For instance, instinctive sympathies and antipathies, sometimes with no apparent cause and lasting for a whole lifetime, remain definitely mind-boggling.

Astrological rules applied to the comparison between two charts produce a quick answer because basic incompatibilities exist, in the same manner as fire does not blend well with water or a journalist's mind does not match a researcher's because their respective and basic objectives are too different.

Thus, astrology allows to quickly understand what could otherwise be ascertained after quite a long period of time. Isn't it already one of the justifications of its practice?

We do think so and we strive to draw information for the benefit of as many people as possible.

However, do not forget that the results and the explanations provided to you are only indications and that it is up to you, and to you only, to decide which path your couple is to follow: the stars incline but they do not compel.
